**Subject:** Action Needed re pesticides!

**Message:** Dear Mr. Mayor and Ashland Councilors:

I am following up on an earlier email to you regarding the provision in the Farm Bill that would not only forbid municipalities from passing ordinances to restrict pesticide use on their own lands, it could undo local pesticide ordinances already in place.

I am proud to live in Ashland, a city that had the foresight to choose to stop using pesticides known to cause cancer in humans and pets, kill pollinators and fish, and more.

I am sending you a link to the most recent request from Beyond Pesticides, which includes links to letters from two mayors who wrote a LTE to raise awareness in their community. If your signature is among those of the 60 elected officials who have already taken action, thank you. If you have not yet signed, please take a moment to read this important information.

Thank you for all you do.

Kristina Lefever  
Ashland citizen  
President, Pollinator Project Rogue Valley
