# Become a Master Recycler in Spring 2010

Jackson County Recycling Partnership & OSU Extension Service invite residents and business representatives to

become Master Recyclers, gaining a broad understanding of waste prevention, recycling, the local solid waste infrastructure, hazardous waste avoidance, and composting. Join a 10-week training course that offers an extensive training manual, discussion-based classes, presentations from local and regional experts and field trips to relevant sites, including the regional landfill, waste-to-energy plant, composting facility and waste water treatment plant.

## Christmas Tree Recycling

*The 26th annual Christmas Tree Recycle Day will be held on Saturday, January 9, 2010. Remember to place your tree by the curb on Friday, January 8 for pick up the next day. The Ashland Host Lions, Early Bird Lions and the Boy Scouts of Troup 112 will be recycling the trees to be used as mulching materials by the Ashland Parks Department on trails in the parks. ▼*

## Cool Weather Heating Safety

Days are shorter, evenings are cooler and Oregon households are beginning to turn up the heat. Ashland Fire & Rescue reminds Ashland residents that chimney fires and combustibles left too close to a heat source are the state's two leading fire causes in heating related fires. These types of fires are easily prevented by keeping chimneys cleaned and remembering to keep combustibles such as furniture, blankets and clothing far away from heaters, woodstoves and similar heat sources.

"Although fires during the day when no one is home are devastating, fires at night when family members are sleeping may be fatal," advise Ashland Fire & Rescue personnel. "Simple precautions prevent fires and the tragedies they bring."

**To reduce fire risk, Ashland Fire & Rescue recommends:**

Have chimneys and flues inspected and cleaned each year by a qualified

chimney sweep. Ask them to check for creosote deposits, soot build-up or physical damage.

☐ Move combustibles including paper, trash, furniture, bedding or clothing at least three feet away from heat sources. Heat sources include candles, gas/wood/pellet stoves, portable, baseboard and wall heaters and any sources with an open flame.

☐ Be cautious with portable heaters. Make sure these heaters have a tip switch to turn them off if knocked over. Keep them away from high traffic areas and unplug when not in use and at night. ▼

## Waste Prevention Ideas

Here are a few helpful waste reduction ideas from the SMART Business Program and the Jackson County Recycling Directory. Go to [www.jcrecyclingdirectory.org](http://www.jcrecyclingdirectory.org), for more information on recycling programs throughout Jackson County.

### *Reduce waste and change buying habits*

☐ Buy durable, quality goods that last: “Buy it right, or buy it twice.” When buying appliances, electronics, etc. choose reputable products/companies.

## Ashland Rotary Centennial Ice Rink

Bundle up, it's ice rink season again! The Ashland Rotary Centennial Ice Rink in Lithia park will be operational (weather permitting) through February 28, 2010. The outdoor rink is located in downtown Ashland, around the corner from the Plaza and directly across from Lithia Park at 95 Winburn Way, corner of Nutley Street and Winburn Way. Bring the whole family; our skate rentals accommodate toddler size 9 to adult size 13. We also rent adjustable skate trainers for first time skaters or those needing a little support.

Come prepared to skate, there are no changing rooms. Hot chocolate, coffee and water are available for sale. Open to the public for recreational and hockey skating.

## News Notes

### *Reclaim the Rain*

Did you know that less than 1% of treated drinking water delivered to your home is actually consumed?

The other 99% is used for landscape watering, toilet flushing, laundry, personal hygiene, and such. Climate change, demand, and water quality issues require us to use water differently. Learn about putting rainfall to beneficial use as close to possible to where it falls— your personal watershed.

We will cover a variety of passive and active techniques for collection and storage and ways to use rainwater as an alternative and supplemental water source for home and garden. This class is for ages 15 & up, on Wednesday, January 13 from 7:00 - 8:00 p.m. at North Mountain Park. Cost is \$10. Registration is required — Please register online at <http://ashlandparks.recware.com> or call NMT Park at 541-488-6606.

### *Seed Swap*

Are you planning your garden? Before you order a long list of seeds from the catalogs, you might want to try acquiring seeds locally at North Mountain Park's seed swap. You can save money, grow plants that are adapted to our local climate, and exchange information with other gardeners. It's fun and simple—just bring seeds you have saved from your garden and some bags or envelopes

- ❑ Use a refillable water bottle or coffee mug; stop purchasing one-time-use bottles and other containers.
- ❑ Avoid to-go foods. When packing a lunch for school or work, use reusable containers.
- ❑ Avoid disposables: Don't buy products manufactured for automatic disposal such as razors, plastic plates, utensils, etc.
- ❑ Buy bulk: Bring your own containers and bags with you to the grocery store.
- ❑ Seek products that have less packaging; store brands, generic foods are often less packaged than others.
- ❑ Buy recycled: Close the loop and help build healthy recycling markets by purchasing items made with recycled content.
- ❑ Buy local: Local goods require far less resources for shipping, storage, etc.
- ❑ Buy used: Instead of buying new, seek second-hand items from Craig's List, The Nickel, thrift stores, etc.
- ❑ Don't buy: Rent or borrow items that you will use infrequently, such as trailers, camping equipment, lawn care equipment, tables and chairs, ladders, power tools and dishware.
- ❑ Reuse shopping bags. Tell the cashier you don't need a bag.
- ❑ Purchase music online using MP3 technology instead of CDs.
- ❑ Repair and mend things, don't discard them.
- ❑ When you no longer need items, share them with a neighbor or give them to charity. ▼

## *Did You Know?*

Your winter water use is the basis for determining annual average sewer bills for the following year.

Meter readings taken during January, February, and March are used for this determination. Depending on your location and billing cycle, your water use beginning as early as December 2009 and ending March 31, 2010 will determine your sewer bills for next year.

Water bills beginning in April 2010 will reflect that usage.
