

Council Business Meeting

April 2, 2019

Agenda Item	Approval of Capital Improvements Program: 2019-2038	
From	Paula C. Brown, PE	Public Works Director
Contact	paula.brown@ashland.or.us	541-552-2411

SUMMARY

Before the Council is a presentation and request for approval of the 20-Year Capital Improvements Program (CIP) for years 2019 to 2039. The CIP is based upon each enterprise fund's master plans or system plans, and operational requirements. This document provides a full context representation of the entire 20-year CIP along with the detailed 6-year project planning documentation. This will inform the budget process within the budget capital line items (704100 for in-house crew labor capital and 704200 for contracted capital projects).

POLICIES, PLANS & GOALS SUPPORTED

City Council Goals:

- Goal 1: Develop current and long-term budgetary resilience
 - Continue to improve the budget process: transparency, rigor, innovation, community involvement, and collaboration
 - Evaluate revenue streams
- Goal 2: Analyze City departments/programs to gain efficiencies, reduce costs and improve services
 - Implement a cost recovery plan and analysis for each department that coincides with the annual review of fees and charges and revenues
 - Evaluate and communicate street program timelines and funding security
- Goal 3: Enhance and improve transparency & communication
 - Develop a robust program to engage with Ashland citizens about City priorities and our progress on those priorities, public input opportunities and processes, how individual citizens can help meet City goals, budgeting and decision-making processes, etc.

Maintain Essential Services

Continue to leverage resources to develop and/or enhance Value Services

- Emergency Preparedness
- Address Climate Change
- Multi-modal Transportation
- All-Age Friendly Community
- Acquisition of New Parks
- Downtown Parking
- Water Conservation

Department Goals:

- Maintain existing infrastructure to meet regulatory requirements and minimize life-cycle costs
- Deliver timely life cycle capital improvement projects
- Maintain and improve infrastructure that enhances the economic vitality of the community
- Evaluate all city infrastructure regarding planning management and financial resources

PREVIOUS COUNCIL ACTION

Throughout this current 2017-19 biennium, Council has heard updates and received information on the current projects within the CIP. Most recently Council was updated on October 15, 2018, where staff presented each

fund and its corresponding master planning documents that guide the prioritization of the CIP. The need for a broader context to fully represent the CIP beyond the two-year budget process was realized.

Staff had previously presented project updates on June 18, 2018 and August 20, 2018. Staff will provide current year project updates for budget preparation on April 3, 2019.

BACKGROUND AND ADDITIONAL INFORMATION

The City utilizes master plans or similar planning documents to ensure the corresponding utilities and enterprise funds can accommodate growth and to keep the systems fully operational, thereby limiting the need for major emergency repairs. Master plans enable a long-term plan to be developed and strengthen the intent to present the most responsible infrastructure improvement costs. Master plans assess the existing systems, establish level of service goals, review future demand, develop a plan for capital improvements, operations, and ultimately propose a rate structure and other financial guidance to enable adherence to the plan. Typically, master plans are reviewed and updated every 5-8 years depending upon the system changes and should be evaluated at every two-year budget cycle to update costs and verify priorities. Updates at this interval ensure inclusion of Council goals, new ordinances, changes in the procedures and development of our community, as well as technological advances.

In addition to each master plan, operational requirements are assessed for capital planning. When major infrastructure replacements are necessary, these projects can often be “capitalized.” This is most easily described with the street division’s pavement condition index (PCI) and the resulting street overlay projects. This is an operational requirement and the condition of each street is not specifically evaluated for the Transportation System Plan. With the food and beverage tax being shifted to arterial and collector streets, the basis for prioritization is the PCI. The major repairs and replacement of asphalt are considered capital expenses and as such, included in the CIP.

The City distinguishes capital projects from general maintenance items. Capital projects are typically for new construction, expansion, major renovations, replacements, or projects that substantially increase the life of an asset. Many projects are multi-year, beginning with planning, design then construction. Some have multiple funding sources.

The document that has been prepared includes a complete list of projects for the 20-year planning horizon for those funds that have plans extending that 20-year period and has detailed descriptions for each of the projects in the initial 6-year period. There are 109 projects across all disciplines in this initial 6-year period. Details are found in the CIP document (attachment 1).

The CIP planning document will be updated as each master plan is completed or updated. The order in which the projects are shown on the CIP may change with the priorities identified in the updated master plan. Staff will bring updates to council routinely.

FISCAL IMPACTS

Each fund must account for the costs of improvements and major maintenance items. The CIP document resides within the Public Works engineering division with support from staff within each fund. Although the initial document took many staff hours of preparation, it is expected to be maintained with minimal staff effort. [Particular appreciation goes to Karl Johnson and Tami Campos.]

STAFF RECOMMENDATION

Staff recommends Council approve the 2019-2039 Capital Improvements Program as presented by staff.

ACTIONS, OPTIONS & POTENTIAL MOTIONS

- I move to approve the 2019-2039 Capital Improvements Program as presented.
- I move to approve the 2019-2039 Capital Improvements Program with the following amendments; _____.
- I recommend staff reassess the CIP and bring back to Council.

20 Year Capital Improvement Program: 2019 – 2039 for BN 2019-21

for April 2, 2019 Council Presentation

The City utilizes master plans or similar planning documents to ensure the corresponding utilities and enterprise funds can accommodate growth and to keep the systems fully operational, thereby limiting the need for major emergency repairs. Master plans enable a long-term plan to be developed and strengthen the intent for the most responsible infrastructure improvement costs. Master plans assess the existing systems, establish level of service goals, review future demand, develop a plan for capital improvements, operations, and ultimately propose a rate structure and other financial guidance to adhere to the plan. Typically, master plans are reviewed and updated every 5-8 years depending upon the changes to the system and should be evaluated every budget cycle to update costs and verify priorities. In addition to each master plan, operational requirements are assessed for capital planning. When major infrastructure replacements are necessary, these projects can often be “capitalized.”

This document provides a full context representation of the entire 20-year CIP along with the detailed 6-year project planning documents. This will inform the budget process within the budget capital line items (704100 and 704200).

POLICIES, PLANS & GOALS SUPPORTED

City Council:

Goal 1: Develop current and long-term budgetary resilience

- *Continue to improve the budget process: transparency, rigor, innovation, community involvement, and collaboration*
- *Evaluate revenue streams*

Goal 2: Analyze City departments/programs to gain efficiencies, reduce costs and improve services

- *Implement a cost recovery plan and analysis for each department that coincides with the annual review of fees and charges and revenues*
- *Evaluate and communicate street program timelines and funding security*

Goal 3: Enhance and improve transparency & communication

- *Develop a robust program to engage with Ashland citizens about City priorities and our progress on those priorities, public input opportunities and processes, how individual citizens can help meet City goals, budgeting and decision-making processes, etc.*

Maintain Essential Services

Department Goals:

- Maintain existing infrastructure to meet regulatory requirements and minimize life-cycle costs
- Deliver timely life cycle capital improvement projects
- Maintain and improve infrastructure that enhances the economic vitality of the community
- Evaluate all city infrastructure regarding planning management and financial resources
- Maintain existing infrastructure to meet regulatory requirements and minimize life-cycle costs

- Deliver timely life cycle capital improvement projects
- Maintain and improve infrastructure that enhances the economic vitality of the community
- Evaluate all city infrastructure regarding planning management and financial resources

TRANSPORTATION PROJECTS

street fund – roadway improvements

Railroad Crossing Improvement - Hersey & Laurel

Proj #: 2011-36

Duration: 2 years

Total Project Cost: \$750,000

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
Expenses:						
Design	\$299,752					
Construction		\$450,000				
Revenues:						
Fees	\$299,752	\$194,358				
SDCs						
Grant		\$255,642				
Other						

Grant: ODOT STP Funds – Fund Exchange 2010

Anticipated Long Term Expenses: No significant long-term expenses. This will be a part of the City’s street improvement fund. Life of the project is 30+ years.

Description:

This project will replace the crossing surface and widen the crossing for bike and pedestrian traffic and will be constructed with the Hersey Street Overlay project. This is a functional safety improvement for all modes of transportation as recommended in the 1998 Transportation System Plan. Pedestrian improvements include sidewalk transitions over the tracks that tie into existing sidewalk on both sides of the crossing. Vehicle improvements include new pavement transition over the crossing and widening to accommodate bicycle traffic.

street fund – roadway improvements

Independent Way - Washington St to Tolman Creek Rd

Proj #: 2013-25 (TSP R25)

Duration: 2+ years

Total Project Cost: **\$1,580,000**

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
Expenses:						
Design	\$576,664					
Construction	\$65,100	\$968,143				
Revenues:						
Fees	\$310,082					
SDCs (17%)	\$266,582					
Grant		\$968,143				
Other						

Grant: ODOT STIP funds.

Anticipated Long Term Expenses: No significant long-term expenses. This will be a part of the City’s street improvement fund. Life of the project is 30+ years.

Description:

This project will consist of the extension of a new street from Washington Street to Tolman Creek Road. Roadway improvements include a culvert crossing over Hamilton Creek, wide enough for a travel lane in both directions and to accommodate bicycle traffic. The project is consistent with the IAMP Exit 14 Access Management on Ashland Street (OR 66).

street fund – roadway improvements

Grandview Drive Improvements - Phase II

Total Project Cost: **\$350,000**

Proj #: tbd

Duration: 1 year

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
-----------	-----------	-----------	-----------	-----------	-----------	-----------

Expenses:

Design			\$75,000			
Construction			\$275,000			

Revenues:

Fees			\$350,000			
SDCs						
Grant						
Other						

Anticipated Long Term Expenses: No significant long-term expenses. This will be a part of the City’s street improvement fund. Life of the project is 30+ years.

Description:

This project will extend the existing “Shared Road” improvements that were installed previously along the length of Grandview Drive between Ditch Road and Scenic Drive. Shared roadways include roadways on which bicyclists and motorists share the same travel lane. The most suitable roadways for shared bicycle use are those with low speeds (25mph or less) or low traffic volumes (3,000 vehicles per day or fewer).

street fund – roadway improvements

City Wide Chip Seal Project (CMAQ)

Proj #: 2013-37

Total Project Cost: \$521,836

Duration: 1+ year

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
-----------	-----------	-----------	-----------	-----------	-----------	-----------

Expenses:

Design			\$75,000			
Construction			\$446,836			

Revenues:

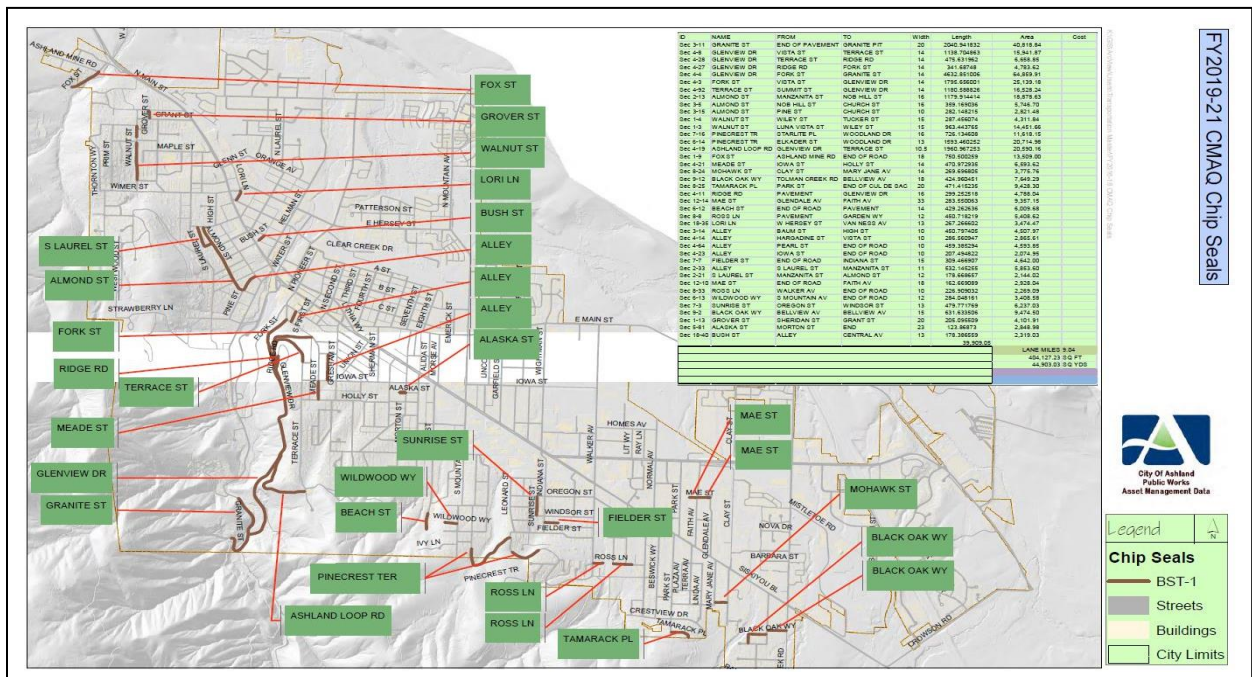

Fees			\$53,592			
SDCs						
Grant			\$468,244			
Other						

Grant: ODOT Congestion Mitigation and Air Quality funded. City pays match of 10.27% (fees). Only showing the fees portion for City funding.

Anticipated Long Term Expenses: No significant long-term expenses. This will be a part of the City’s street improvement fund. Life of the project is 20+ years.

Description:

The project consists of grading, prepping and installing a double chip seal on approximately 44,903 square yards of existing dirt roads within the Ashland City limits. The chip seal project proposed is a double shot chip seal with a fog seal. The base course will be 1/2" and the top course will be 3/8". The project will also involve geotechnical analysis of the road sections to determine if drainage is appropriate. In addition, roads that serve truck traffic will include an additional 6" of base material added for structural support.

street fund – roadway improvements

Lithia Way (OR 99 NB)/E Main Street Intersection Improvements

Proj #: TSP R05

Duration: 1 year

Total Project Cost: **\$73,750**

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
-----------	-----------	-----------	-----------	-----------	-----------	-----------

Expenses:

Design			\$7,500			
Construction			\$66,250			

Revenues:

Fees						
SDCs (10%)			\$7,375			
Grant			\$66,375			
Other						

Grant: ODOT STIP funding

Anticipated Long Term Expenses: No significant long-term expenses. This will be a part of the City's street improvement fund. Life of the, project is 30+ years.

Description:

The project consists of improving the visibility of the existing signal heads and identify and install speed reduction treatments to slow vehicles on northbound approach. The National Cooperative Highway Research Program (NCHRP) Report 613 Guidelines for Selection of Speed Reduction Treatments at High-Speed Intersections will be used for guidance on the treatments that will be installed.

street fund – roadway improvements

Ashland Street (OR 66)/Oak Knoll Drive/E Main Street Intersection Improvements

Total Project Cost: **\$602,851**

Proj #: TSP R08

Duration: 1+ years

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
Expenses:						
Design			\$72,500			
Construction			\$530,351			
Revenues:						
Fees						
SDCs (10%)			\$60,285			
Grant			\$542,566			
Other						

Grant: City will apply for ODOT funding.

Anticipated Long Term Expenses: No significant long-term expenses. This will be a part of the City's street improvement fund. Life of the project is 30+ years.

Description:

The project consists of the realignment of the E. Main Street approach at Ashland Street (OR66) to eliminate the current offset that exists with Oak Knoll Drive. Construction will also include the installation of speed reduction treatments which may include dynamic warning signs, pavement markings and/or lane width reduction. The National Cooperative Highway Research Program (NCHRP) Report 613 *Guidelines for Selection of Speed Reduction Treatments at High-Speed Intersections* will be used for guidance on the treatments that will be installed.

street fund – roadway improvements

Walker Avenue Festival Street (Siskiyou Blvd to Ashland St)

Proj #: TSP R40

Duration: 2 years

Total Project Cost: **\$1,150,500**

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
-----------	-----------	-----------	-----------	-----------	-----------	-----------

Expenses:

Design					\$200,000	
Construction						\$950,500

Revenues:

Fees					\$128,000	\$608,320
SDCs (36%)					\$72,000	\$342,180
Grant						
Other						

Anticipated Long Term Expenses: No significant long-term expenses. This will be a part of the City’s street improvement fund. Life of the project is 30+ years.

Description:

The project consists of reconstructing the existing street to include flush height curbs and a scored concrete roadway surface. Other treatments that will be included will be decorative bollards to delineated pedestrian space, street trees, low impact storm water facilities and ornamental lighting. This project will help promote the “Pedestrian Places” planning concept which is intended to direct and encourage development of small walkable nodes that provide concentrations of gathering places, housing, businesses, and pedestrian amenities situated and designed in a way to encourage walking, bicycling, and transit use.

street fund – roadway improvements

Normal Avenue Extension

Total Project Cost: **\$3,630,499**

Proj #: TSP R19

Duration: 1+ year

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
Expenses:						
Design					\$500,000	
Construction						\$3,080,499
Revenues:						
Fees					\$379,500	\$2,125,544
SDCs (31%)					\$170,500	\$954,955
Grant						
Other						

This project is development driven. SDC will be a combination of developer funds and SDC credit.

Anticipated Long Term Expenses: No significant long-term expenses. This will be a part of the City’s street improvement fund. Life of the project is 30+ years.

Description:

The project consists of the construction of a new roadway from the existing Normal Avenue at-grade railroad crossing to E. Main Street. The new roadway will be designed as an “Avenue” functional classification and will include sidewalks and bike lanes. Additional streets will connect to this new roadway as development proceeds in the area and conform to the approved Normal Avenue Neighborhood Plan. This project will also need to coordinate with the Normal Avenue at-grade railroad crossing upgrade project that was proposed in the current Transportation System Plan.

street fund – overlay

Hersey Street Reconstruction – N. Main to N. Mountain Ave

Proj #: 2017-09

Total Project Cost: **\$4,500,000**

Duration: 2+ years

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
-----------	-----------	-----------	-----------	-----------	-----------	-----------

Expenses:

Design	\$625,000					
Construction	\$375,000	\$3,500,000				

Revenues:

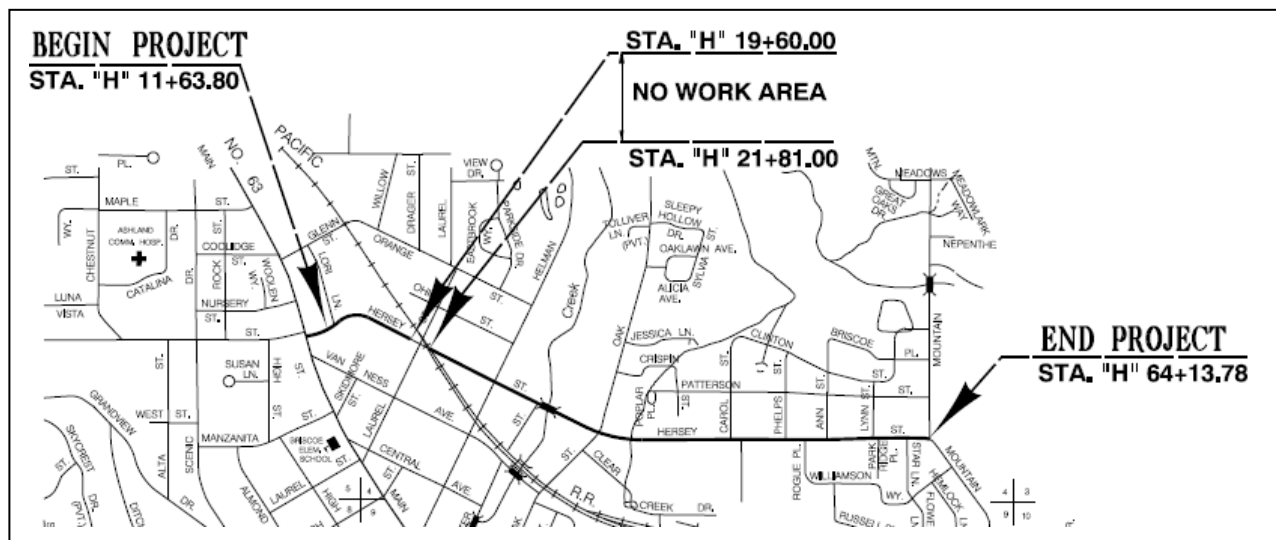

Fees						
SDCs						
Grant						
Other	\$1,000,000	\$3,500,000				

“Other”: This project is funded with food and beverage tax revenue.

Anticipated Long Term Expenses: No significant long-term expenses. This will be a part of the City’s street improvement fund. Life of the project is 30+ years.

Description:

This project will consist of the reconstruction of Hersey Street between N. Main Street and N. Mountain Avenue as per the City of Ashland’s Pavement Management System. Project will include full depth reclamation of the existing asphalt surface combined with a concrete treated base, replacement of non-ADA compliant sidewalk and handicap access ramps and utility replacements as necessary. This project will be completed in conjunction with the Railroad Crossing Improvement – Hersey & Laurel Project.

street fund – overlay

Wightman Street Overlay – Quincy to Siskiyou

Proj #: 2015-01

Duration: 2 years

Total Project Cost: **\$1,014,500**

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25

Other						

Anticipated Long Term Expenses: No significant long-term expenses. This will be a part of the City’s street improvement fund. Life of the project is 30+ years.

Description:

This project will consist of an asphalt overlay and partial rebuild of Garfield Street between E. Main Street and Siskiyou Boulevard as per the City of Ashland’s Pavement Management System. Project will include some full depth reconstruction, replacement of non-ADA compliant sidewalk and handicap access ramps and utility replacements as necessary.

street fund – pedestrian

Install Sidewalk, N. Mountain Ave - Village Green to Iowa

Total Project Cost: **\$663,750**

Proj #: (TSP P22)

Duration: 2 years

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
Expenses:						
Design		\$66,375				
Construction			\$597,375			
Revenues:						
Fees		\$1,912	\$17,204			
SDCs (97%)		\$64,463	\$580,171			
Grant						
Other						

Anticipated Long Term Expenses: No significant long-term expenses. This will be a part of the City’s street improvement fund. Life of the project is 30+ years.

Description:

The project consists of the installation of sidewalk along N. Mountain Avenue from approximately 100-ft south of Village Green Drive to Iowa Street. The project will fill in missing sections of sidewalk and will include replacement of non-ADA compliant access ramps, to form a complete pedestrian route along both sides of N. Mountain Avenue from Clinton Street to Siskiyou Boulevard. This project will coincide with the N Mountain Avenue - I-5 Overpass to E Main Street Overlay Project.

street fund – pedestrian

N. Mountain Avenue RRFB Installation - Fair Oaks Avenue

Total Project Cost: **\$50,000**

Proj #: tbd

Duration: 1 year

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25

Other						

Grant: Safe Routes to School

Anticipated Long Term Expenses: No significant long-term expenses. This will be a part of the City’s street improvement fund. Life of the project is 30+ years.

Description:

The project consists of the installation of sidewalk along Garfield Street between E. Main Street and Siskiyou Boulevard and will include finishing areas that remain without sidewalk as well as replacement of existing sidewalk and access ramps that do not meet current ADA standards. The project will give pedestrians a continuous accessible route along both sides of the street for the entire length of Garfield Street.

street fund – bicycle

Wightman Street Bicycle Boulevard; E Main to Siskiyou

Proj #: (TSP B11)

Total Project Cost: **\$81,420**

Duration: 1 year

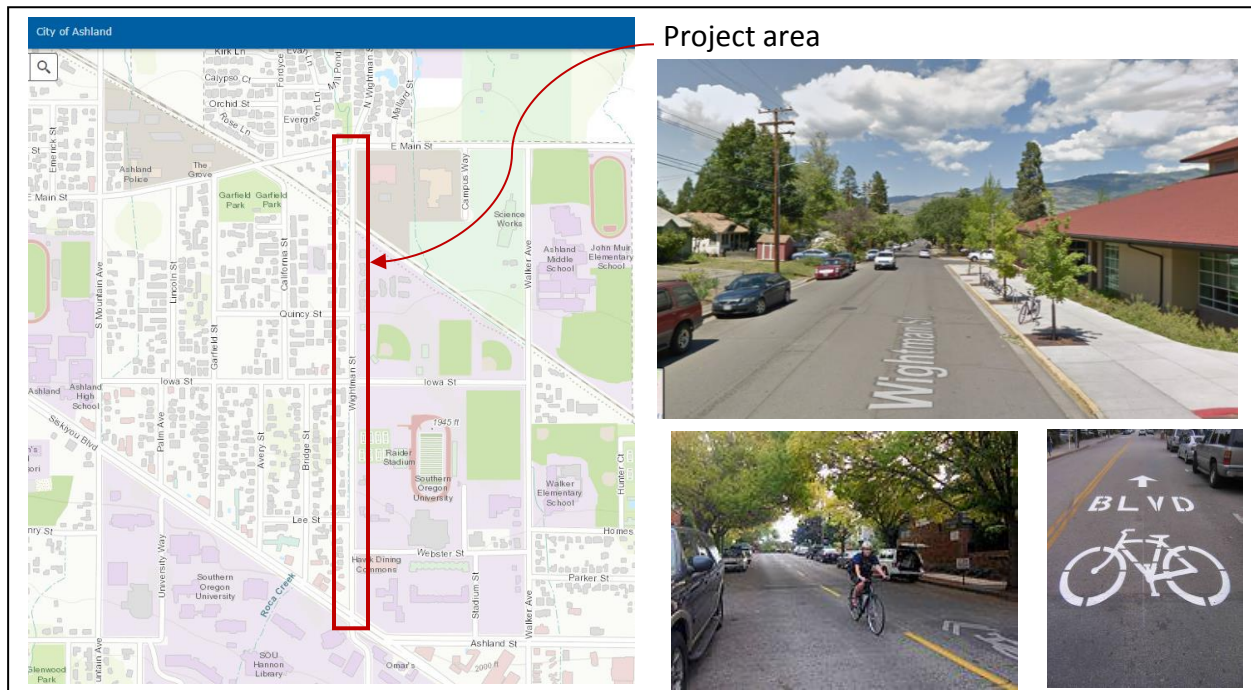

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design	\$8,142					
Construction	\$73,278					
Revenues:						
Fees	\$45,677					
SDCs	\$27,601					
Grant						
Other	\$8,142					

“Other” is intended to be grant funding, but may be unavailable. If unavailable, design cost will be borne in the engineering budget.

Anticipated Long Term Expenses: Long term expenses will include striping/line painting and sweeping.

Description:

This project was identified as a high priority project on a neighborhood collector street. It will fill a gap in the bicycle network and provides a “bicycle boulevard” along an active section of the City that serves various community functions. Bicycle boulevards modify typically low volume local streets to allow the through movement of bicycles yet maintaining local access for automobiles. Bicycle boulevards typically speeds and provide a more comfortable environment for cyclists. This project will be completed after the street overlay project.

street fund – bicycle

Lithia Way Bicycle Boulevard; Oak to Helman

Proj #: (TSP B16)

Total Project Cost: **\$149,270**

Duration: 1 year

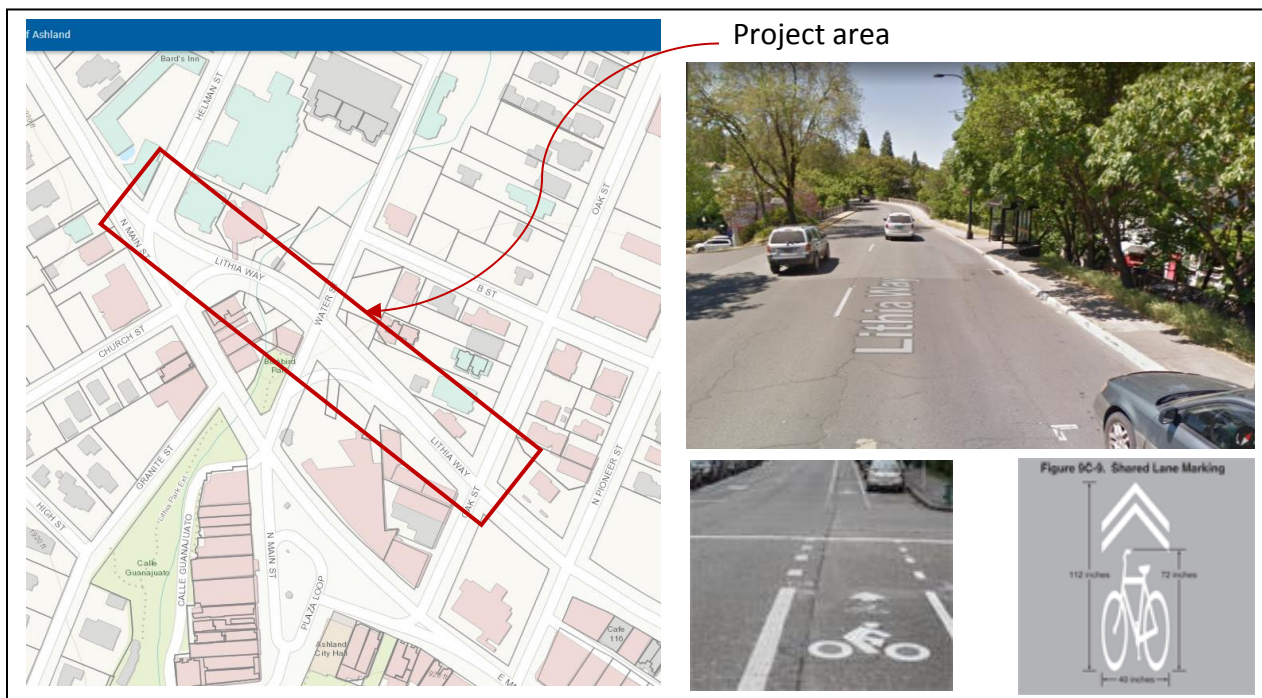

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design		\$14,927				
Construction		\$73,278				
Revenues:						
Fees		\$83,740				
SDCs		\$50,603				
Grant						
Other		\$14,927				

“Other” is intended to be grant funding, but may not be available. If unavailable, design cost will be borne in the engineering budget.

Anticipated Long Term Expenses: Long term expenses will include striping/line painting and sweeping.

Description:

This project fills the gaps in the bicycle network and provides a “Bicycle Boulevard” along a very active portion of the City that serves a variety of community connections. Lithia Way is classified as a “boulevard” and carries both commercial and residential traffic. Bicycle boulevards modify local streets to allow the through movement of bicycles yet maintaining local access for automobiles. Bicycle boulevards typically include bicycle route signage and pavement markings and often feature traffic calming to slow vehicle speeds and provide a more comfortable environment for cyclists.

street fund – bicycle

Other			\$6,785			

Other is intended to be grant funding, but may be unavailable. If unavailable, design cost will be borne in the engineering budget.

Anticipated Long Term Expenses: Long term expenses will include striping/line painting and sweeping.

Description:

This high priority project fills the gaps in the bicycle network and provides a “bicycle boulevard” along a very active portion of the City that serves various community functions through the downtown core on this “boulevard”. Bicycle boulevards modify local streets to allow the through movement of bicycles yet maintaining local access for automobiles. Bicycle boulevards typically include bicycle route signage and pavement markings and often feature traffic calming to slow vehicle speeds and provide a more comfortable environment for cyclists.

street fund – bicycle

Walker Avenue Bicycle Boulevard; Siskiyou to Peachey

Other						\$25,783

“Other” is intended to be grant funding, but may be unavailable. If unavailable, design cost will be borne in the engineering budget.

Anticipated Long Term Expenses: Long term expenses will include striping/line painting and sweeping.

Description:

This high priority project fills the gaps in the City’s bicycle network and provides a “bicycle boulevard” along this “avenue” designated street. This project will be coordinated with the Normal Avenue extension (TSP R19). Bicycle boulevards modify local streets to allow the through movement of bicycles yet maintaining local access for automobiles. Bicycle boulevards typically include bicycle route signage and pavement markings and often feature traffic calming to slow vehicle speeds and provide a more comfortable environment for cyclists.

WATER PROJECTS

water supply fund

Dam Safety Improvements

Total Project Cost: **\$4,800,000 (est)**

Proj #: TBD

Duration: 4-5 years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design	\$300,000	\$500,000				
Construction			\$2,000,000	\$2,000,000		
Revenues:						
Fees	\$112,500	\$187,500	\$750,000	\$750,000		
SDCs (25%)	\$37,500	\$62,500	\$250,000	\$250,000		
Grant						
Other	\$150,000	\$250,000	\$1,000,000	\$1,000,000		

“Other”: The Electric Fund typically pays for 50% of FERC required improvements.

The proportional SDC allocation will be reviewed during completion of the Water Master Plan.

Anticipated Long Term Expenses: Staff time for management of improvement and maintenance projects. Life cycle replacement of infrastructure associated with the Dam, including valves, waterlines, stairs, walkways, security cameras and telecommunications items.

Description:

The City recently completed its Federal Energy Regulatory Commission (FERC) Part 12 inspection of Hosler Dam and associated appurtenances. The Part 12 inspection and associated Potential Failure Modes Analysis Update (PFMA) details areas of concern with respect to the dam and what is defined as an uncontrolled release of water. The major point of emphasis with respect to the PFMA update from FERCs perspective is the potential erosivity of the left abutment under defined flood loading conditions. FERC will require the City to develop a plan and schedule to address the erosivity issue during the biennium. Other dam improvements will include evaluation of the spillway and spillway structures and dam piping penetrations.

water supply fund

Ashland Canal Piping Project

Proj #: 2015-17

Duration: 4+ years

Total Project Cost: **\$3,710,310**

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
-----------	-----------	-----------	-----------	-----------	-----------	-----------

Expenses:

Design	\$210,310	\$500,000				
Construction			\$1,500,000	\$1,500,000		

Revenues:

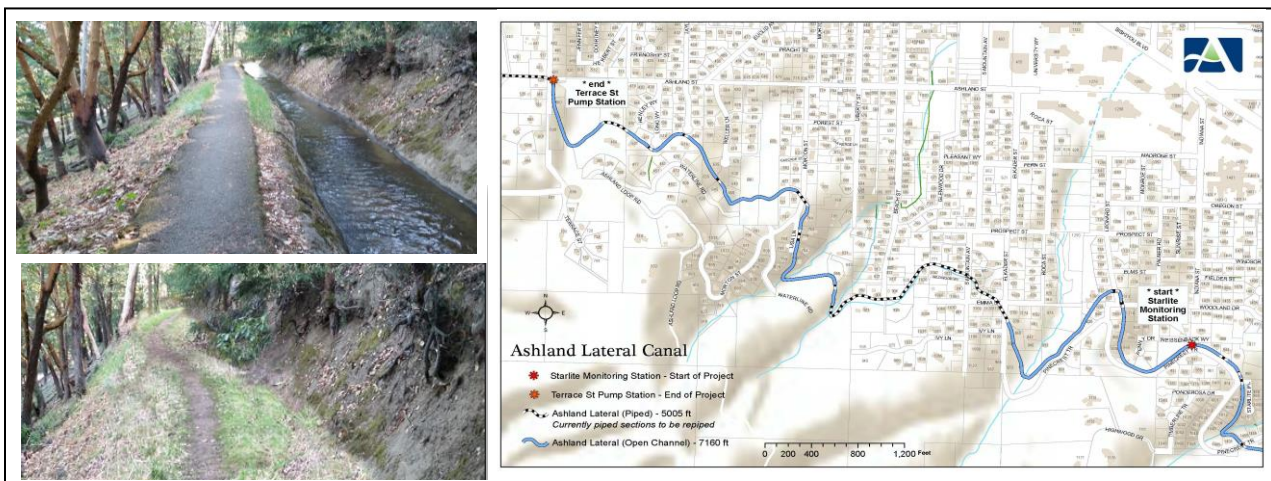

Fees						
SDCs (100%)	\$210,310	\$500,000	\$1,500,000	\$1,500,000		
Grant						
Other			DEQ	TBD		

“Other”: The City has secured a \$1.3 M sponsorship loan (R11573) from the Department of Environmental Quality Clean Water State Revolving Fund Loan to improve creek health by piping the canal. Should Council recommend a different alternative, the loan eligibility is terminated. Staff would look for different funding sources. Staff will review the proportional allocation to SDCs with the completion of the 2019 Water Master Plan.

Anticipated Long Term Expenses: Long term expenses include maintenance of the piped section of the ditch to ensure delivery of water to the City’s irrigation customers and the water treatment plant when needed. Expenses will also include the life cycle replacement of the piped sections and irrigation services.

Description:

The City of Ashland places priority on improving water quality and conserving water. As recommended by the City’s Comprehensive Water Master Plan (2012), the City plans to pipe the front section of the Ashland Canal (approximately 10,000 lineal feet). During low water years, water from the Ashland canal is pumped up to the treatment and treated for distribution of potable water.

water supply fund

East and West Forks Transmission Line Rehabilitation

Proj #: 2018-10

Duration: 3 years

Total Project Cost: **\$2,226,055**

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design	\$103,055	\$236,000	\$59,000			
Construction		\$124,000	\$1,704,000			
Revenues:						
Fees	\$103,055	\$267,000	\$1,763,000			
SDCs (75%)		\$93,000				
Grant						
Other						

Anticipated Long Term Expenses: Long term expenses for the East and West Forks Transmission Line Rehabilitation project include life cycle replacement costs and staff required to manage system when needed for raw water transmission to the treatment plant.

Description:

The connection to the East and West Fork diversions on Ashland Creek currently exit as 24-inch ductile iron pipes with sections of 24-inch steel pipe. These transmission lines are important infrastructure components related to the City's water supply and the project will replace 1500 feet of steel pipe with ductile iron. This includes two crossings of Reeder Reservoir They enable water to be diverted above Reeder Reservoir to the water treatment plant, allowing the City to dewater the main reservoir for sediment removal, dam repairs, intake structure repairs and potentially manage an algal bloom. Public Works is forecasting significant maintenance related repairs and improvements to Hosler Dam over the next two budget cycles, thus requiring the transmission lines provide a reliable bypass option for raw water moving forward. This project includes evaluation of the steel pipe line condition with recommendations to replace or slip-line the transmission lines. The project also includes engineering and construction of a bridge crossing over the West Fork which is 75% SDC eligible.

water supply fund

Reeder Reservoir – Variable Intake Repairs

Total Project Cost: **\$131,000**

Proj #: TBD

Duration: 2 years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design		\$24,490	\$107,010			
Construction						
Revenues:						
Fees		\$24,490	\$107,010			
SDCs						
Grant						
Other						

Anticipated Long Term Expenses: Long term expenses for the variable depth intake project include life cycle replacement costs and general maintenance requirements for the intake structure. This includes bolt replacement and painting of the structure to protect against corrosion.

Description:

As a result of water quality studies, the need to be able to draw from different depth levels of Reeder Reservoir during different times of the year will allow the City to better manage raw water quality for treatment of potable water. In addition, the ability to draw colder water from deeper in the reservoir, will provide for flow augmentation associated with meeting the wastewater treatment plants effluent temperature limits through flow blending during critical fall time periods for fish migration and spawning. The project will be combined with other dam safety improvements.

water supply fund

Reeder Reservoir – Sediment Removal

Proj #: 2018-17

Total Project Cost: **\$140,000 per occurrence**

Duration: 6 months

	Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:							
Design		In-house			In-house		
Construction		\$140,000			\$140,000		
Revenues:							
Fees		\$35,000			\$35,000		
SDCs (75%)		\$105,000			\$105,000		
Grant							
Other							

Anticipated Long Term Expenses: Long term expenses include the continual management of sediment and permitting as needed to comply with the total maximum daily load requirements (TMDL) for Reeder Reservoir. Staff recommends removal on a 3 to 4-year basis.

Description:

Oregon DEQ has established a sedimentation TMDL for Reeder Reservoir requiring that no more than 3.62 cubic yards per day shall be added to the Reservoir. The City is required to monitor the sediment and prevent excess accumulation. To prevent excess accumulation and preserve the water storage capacity of the reservoir, the City removes accumulated sediment from the upper small dam impoundments on the east and west forks of Ashland Creek to prevent sediment from entering Reeder Reservoir itself. City staff handle all permitting requirements and bid the construction phase. Permits are good for five (5) years with a maximum defined removal amount.

water treatment fund

7.5 MGD Water Treatment Plant

Proj #: 2018-20

Total Project Cost: **\$32,002,974**

Duration: 4+ years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design	\$1,302,974	\$1,900,000	\$750,000	\$250,000		
Construction		\$2,000,000	\$12,400,000	\$13,400,000		
Revenues:						
Fees	\$1,172,677	\$3,510,000	\$11,835,000	\$12,285,000		
SDCs (10%)	\$130,297	\$390,000	\$1,315,000	\$1,365,000		
Grant						
Other		IFA loan	IFA loan			

“Other”: Oregon IFA Loan for \$14.8 M; 1.79% interest, \$1,030,000 in principal forgiveness.

Anticipated Long Term Expenses:

Long term expenses for the new water treatment plant will focus on life cycle equipment replacement, treatment chemicals, energy requirements, general operational requirements and staffing. These are similar long-term expenses associated with the current treatment plant.

Description:

The 7.5 MGD Water Treatment Plant project includes a preliminary and final engineering phase, and the construction and start-up phase. The engineering phase include analysis of treatment train alternatives, final design, development of formal specifications and estimates for the construction phase. The construction phase includes physical construction along with construction management and plant startup services. Analysis for abandoning and/or reuse of the existing water treatment plant will also be done as part of the engineering phases. The goals for the project include development of a reliable, simple, robust, energy efficient and expandable raw water treatment train and plant that will fully meet current and potential future regulatory requirements meant to serve the citizens of Ashland for the next 50+ years. This project expands upon and combines several prior BN CIP projects.

water distribution fund

Water Distribution Pipe Replacement Program

Proj #: 704100

Total Project Cost: **\$300,000 per year**

Duration: continual

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
Expenses:						
Design		\$30,000	\$30,000	\$30,000	\$30,000	\$30,000
Construction		\$270,000	\$270,000	\$270,000	\$270,000	\$270,000
Revenues:						
Fees		\$300,000	\$300,000	\$300,000	\$300,000	\$300,000
SDCs						
Grant						
Other						

Other: Staff anticipates that some portion of some of the pipe replacement program will be SDC eligible and will verify with the 2019 Water Mater Plan update.

Anticipated Long Term Expenses: Long term expenses include any maintenance of valves and hydrants on the distribution line and eventual life cycle replacement costs.

Description:

This program is designed primarily for in-house crew labor to replace undersized (not meeting current 8" minimum) and pipe material concerns. This may also include pressure reducing valves.

Proposed projects include:

- ◆ abandon water main from Grandview to Wimer
- ◆ Fox from Ashland Mine to dead end
- ◆ Fox from N. Main to Ashland Mine Rd
- ◆ Ashland Mine from Fox to Cedar
- ◆ Fordyce from E. Main to dead end
- ◆ Cambridge from Willow to W. Nevada
- ◆ Terrace from 527 Terrace North to the end

water distribution fund

Oak Street Water Line - WWTP to E. Nevada Street

Total Project Cost: **\$675,000**

Proj #:

Duration: 1 year

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
-----------	-----------	-----------	-----------	-----------	-----------	-----------

Expenses:

Design	In-house					
Construction	\$275,000	\$400,000				

Revenues:

Fees	\$275,000	\$400,000				
SDCs						
Grant						
Other						

Other: This capacity improvement should be eligible for SDCs and will be evaluated with the Water Master Plan update.

Anticipated Long Term Expenses: Long term expenses include any maintenance of valves and hydrants on the distribution line and eventual life cycle replacement costs.

Description:

The existing Oak Street water line is significantly under sized and at the end of its useful life-cycle. The water line will be replaced and run to the wastewater treatment plant.

water distribution fund

Ditch Road; Strawberry Lane to Grandview Drive Waterline

Proj #: WTP P35
Duration: 2 years

Total Project Cost: **\$203,000**

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25

Anticipated Long Term Expenses: Long term expenses include any maintenance of valves and hydrants on the distribution line and eventual life cycle replacement costs.

Description:

The water line on A Street from 1st Street to 6th Street is undersized for fire flow requirements and current capacity expectation. This upsizing project corrects those concerns.

water distribution fund

Vista Street from Fork to Hillcrest Water Line Upsizing

Proj #: WMP P11

Duration: 1 year

Total Project Cost: **\$168,000**

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
-----------	-----------	-----------	-----------	-----------	-----------	-----------

Expenses:

Design						\$25,000
Construction						\$143,000

Revenues:

Fees						\$168,000
SDCs						
Grant						
Other						

Other: Staff anticipates this project may be eligible for partial SDC allocation and will verify with the 2019 Water Mater Plan update.

Anticipated Long Term Expenses: Long term expenses include any maintenance of valves and hydrants on the distribution line and eventual life cycle replacement costs.

Description:

The water line on Vista Street from Fork Street to Hillcrest Street is undersized for fire flow requirements and current capacity expectation. This upsizing project corrects those issues.

WASTEWATER PROJECTS

wastewater treatment fund

UV System Upgrades/Replacement

Proj #: tbd

Duration: 3 years

Total Project Cost: **\$640,000**

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design	\$40,000	\$40,000				
Construction		\$160,000	\$400,000			
Revenues:						
Fees	\$40,000	\$160,000	\$320,000			
SDCs 20%		\$40,000	\$80,000			
Grant						
Other						

Anticipated Long Term Expenses: The ultraviolet (UV) system has a finite life of 15-20 years and must be maintained as any process in the treatment plant. Staff will include budget estimates for long range planning and this component will be evaluated in master plans. The master plan forecasts the need for an additional disinfection train in 2030.

Description:

In 1998, the City's wastewater treatment plant opted for UV disinfection treatment over chemical chlorine disinfection. UV provides a safe, environmentally friendly and cost-effective disinfection process that instantaneously neutralizes microorganisms as they pass by ultraviolet lamps submerged in the effluent. The process adds nothing to the water but UV light, and therefore, has no impact on the chemical composition or the dissolved oxygen content of the water. The current system has reached its useful component life. In addition to component replacement, an additional capacity enhancement will be added to improve hydraulic capacity to the system and increase the useful life. Staff will ensure interim operational solutions prior to this major upgrade in 2020.

wastewater treatment fund

WWTP Riparian Restoration/Shading Water Quality Temperature Trading Program

Total Project Cost: **\$2,908,010** (first 5 years)

Proj #: 2018-21

Duration: 25 years (2043)

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25	
Expenses:							
Design	\$163,010	\$100,000					
Construction	\$20,000	\$365,000	\$600,000	\$660,000	\$380,000	\$420,000	\$200,000
Revenues:							
Fees	\$155,560	\$395,250	\$510,000	\$561,000	\$323,000	\$357,000	\$170,000
SDCs 15%	\$27,450	\$69,750	\$90,000	\$99,000	\$57,000	\$63,000	\$30,000
Grant							
Other							

“Other”: In addition to rates and fees, a significant portion of funds for this project are part of a DEQ CWSRF Loan #R11754 (\$2,000,000) which was updated and approved by Council on February 6, 2018. The loan will be repaid over time and will be shown in a debt account.

Anticipated Long Term Expenses: This is a 20-year tree planting and riparian restoration project per site. Initial capital outlay is for site preparation and planting, and the initial 5 years to maintain the plantings which includes site clean-up, watering and potentially some re-vegetation for each site. Costs will diminish through the 20-year life as trees and vegetation matures. After the initial 5 year outlay for capital, this item will transition to wastewater treatment plant operational expenses. Loan funds will be repaid through previously anticipated increases to rates and fees. O&M costs are anticipated starting at \$80,000 and going down to \$50,000 per year for 20 years.

Description:

This is one of several projects the City will complete to meet anticipated temperature standards to comply with new state water quality regulations as anticipated for the WWTP DEQ National Pollutant Discharge Elimination System (NPDES) permit renewal. This project was initiated with the completion of the 2012 Comprehensive Sewer Master Plan. Ashland’s Water Quality Trading Plan was accepted by the Oregon Department of Environmental Quality (DEQ) on March 9, 2018, as being consistent with Oregon’s Water Quality Trading Rule. The Water Quality Trading Plan will focus on implementing riparian re-vegetation and shading projects to generate “credits” to satisfy the City’s anticipated upcoming temperature obligation. The Freshwater Trust is under phase 1 contract to begin the program architecture and pilot shading projects. Phase 2 planting (construction) is anticipated for the fall of 2019 depending upon finalizing the DEQ NPDES permit.

wastewater treatment fund

WWTP Outfall Relocation Project

Proj #: 2013-21

Duration: 3 years

Total Project Cost: **\$2,073,500**

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design	\$573,500	\$300,000				
Construction		\$200,000	\$500,000	\$200,000		
Revenues:						
Fees	\$487,475	\$425,000	\$425,000	\$170,000		
SDCs 15%	\$86,025	\$75,000	\$75,000	\$30,000		
Grant						
Other						

“Other”: In addition to rates and fees, a significant portion of funds for this project are part of a \$2.5 Million DEQ CWSRF Loan #R11754; updated / approved by Council on February 6, 2018.

Anticipated Long Term Expenses: This will be a part of the City’s wastewater treatment plant operational expenses. Life of the project is 40+ years. Loan funds will be repaid through previously anticipated increases to rates and fees. Staff anticipate no significant long-term expenses with respect to maintenance.

Description:

This is one of several projects the City will complete to meet anticipated temperature standards to comply with state water quality regulations as anticipated for the WWTP DEQ National Pollutant Discharge Elimination System (NPDES) permit renewal. This project was initiated with the completion of the 2012 Comprehensive Sewer Master Plan. The WWTP Outfall Relocation Study was completed in August 2017 which evaluated specific alignment options. Engineering pre-design on the selected alignment along the existing sewer line easement (see below) was complete in the 2017-19 BN. The joint permit application is in progress. Final design and construction are anticipated to begin in spring of 2020 depending upon finalizing the DEQ NPDES permit.

wastewater treatment fund

WWTP Headworks Process Improvements

Total Project Cost: **\$960,000**

Proj #:

Duration: 3 years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design	\$60,000					
Construction		\$300,000	\$300,000	\$300,000		
Revenues:						
Fees	\$50,000	\$250,000	\$250,000	\$250,000		
SDCs (20%)	\$10,000	\$50,000	\$50,000	\$50,000		
Grant						
Other						

Anticipated Long Term Expenses: Long term expenses are part of the overall maintenance process.

Description:

The "headworks" of a wastewater treatment plant is the initial stage of the treatment process designed to reduce the level of pollutants in the incoming wastewater discharges. The headworks removes inorganics such as grit, plastics, rags and other larger debris from the influent waste stream to protect and reduce wear on the main wastewater process equipment. Headworks equipment includes pumps, mechanical screens, screening compactors, grit removal systems and grit washing systems. Upgrades to the wastewater treatment plant in 1998 did not fully replace the headworks. After many repairs, this will replace worn systems to the grit removal process and also replace the splitter box.

wastewater treatment fund

WWTP Harmonics Upgrade

Total Project Cost: **\$210,000**

Proj #:

Duration: 2 years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design	\$10,000					
Construction	\$200,000					
Revenues:						
Fees	\$210,000					
SDCs						
Grant						
Other						

Anticipated Long Term Expenses: The proposed harmonics improvements will improve general system operations and maintenance and should decrease the need for adjustments due to power interruptions.

Description:

Treatment plant staff have struggled with multiple minor power system problems including interruptions, interference, downtime, and instrumentation disruption. The likely cause is due to harmonic distortion and is being evaluated in the 2019 Facilities Assessment. This project will identify the causes of system disruptions and correct the electrical distortion likely caused by the multiple variable frequency drives and transformers on site.

Sine Wave Power → Variable Frequency Power → Mechanical Power
Operator Interface → Variable Frequency Controller → AC Motor

Power Conversion → Power Conversion

wastewater treatment fund

WWTP Miscellaneous Improvements and Upgrades

Proj #: 704100

Total Project Cost: **\$900,000 over 6 years**

Duration: continual

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
Expenses:						
Design	\$5,000	\$5,000	\$5,000	\$5,000	\$5,000	\$5,000
Construction	\$145,000	\$145,000	\$145,000	\$145,000	\$145,000	\$145,000
Revenues:						
Fees	\$150,000	\$150,000	\$150,000	\$150,000	\$150,000	\$150,000
SDCs						
Grant						
Other						

Anticipated Long Term Expenses: The proposed improvements will improve general system operations and maintenance and should decrease the need for difficult and instantaneous repairs.

- Note: (1) prior year's costs for miscellaneous improvements are not shown as there are multiple minor capital improvements over the past 20 years.
 (2) some improvements will be SDC eligible based on capacity increases. These projects will be evaluated and added to the Master Plan update accordingly.

Description:

The current treatment plant is now 20 years old. Staff have struggled with multiple system problems including pumps, piping, rake arms, clarifier basins, centrifuge assemblies, etc. Potential solutions are being evaluated in the 2019 Facilities Assessment. This multiple year series of capital projects will identify and correct process deficiencies and address aging infrastructure.

wastewater treatment fund

WWTP Membrane Replacement

Total Project Cost: **\$1,200,000 every 5 years**

Proj #:

Duration: continual

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
-----------	-----------	-----------	-----------	-----------	-----------	-----------

Expenses:

Design					\$50,000	
Construction					\$550,000	\$600,000

Revenues:

Fees					\$360,000	\$360,000
SDCs 40%					\$240,000	\$240,000
Grant						
Other						

The City received a loan for the replacement project in 2012 and will attempt to do so again to help keep rates in balance.

Anticipated Long Term Expenses: The membrane trains must be replaced every 10 + years. This project identifies and forecasts funding for that requirement.

Description:

In 2003, the City opted to build and use membrane filtration as a tertiary filtration to remove phosphorous. The membrane filters are in "cassettes" and have a 10+ year life. Over time the membrane cassettes must be replaced. Technology of the membranes have improved, and the City will ensure appropriate upgrades during the scheduled replacement. The proposed 2023 upgrade will increase capacity and ultimately reduce operational and maintenance requirements. This project will be coordinated with the membrane pumps and piping replacement project.

CAPITOL IMPROVEMENTS PROGRAM
ENGINEERING DIVISION

wastewater collections fund

Miscellaneous Sanitary Sewer Crew Upgrades

Proj #: 704100

Total Project Cost: **\$630,000 over 6 years**

Duration: continual

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
-----------	-----------	-----------	-----------	-----------	-----------	-----------

Expenses:

		In house	In house	In house	In house	In house	In house
Design							
Construction		\$105,000	\$105,000	\$105,000	\$105,000	\$105,000	\$105,000

Revenues:

Fees		\$105,000	\$105,000	\$105,000	\$105,000	\$105,000	\$105,000
SDCs							
Grant							
Other							

Anticipated Long Term Expenses: The proposed improvements will improve overall system operations and maintenance. Replacing pipes on a schedule will decrease the need for difficult and instantaneous repairs and prevent sewage spills.

Typically, these projects replace piping in kind, but if pipes are upsized for capacity improvements, SDCs may be eligible. Changes will be addressed in the Collection System Master Plan (2019).

Description:

The City’s sanitary sewer maintenance crew is devoted to repairing and replacing lines based upon the concerns found with the camera before there are significant problems, or in addition to repair work that is completed annually. Current project list includes: Maple Street in front of the hospital; 8th Street; 6th Street; Harrison; Roca; Glendale and Garfield. Other projects will be added based on line evaluations (camera).

wastewater collections fund

Miscellaneous Sanitary Sewer Trenchless Liner Upgrades

Total Project Cost: **\$795,000 over 6 years**

Proj #: TBD

Duration: continual

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
-----------	-----------	-----------	-----------	-----------	-----------	-----------

Expenses:

Design		\$15,000		\$15,000		\$15,000	
Construction			\$250,000		\$250,000		\$250,000

Revenues:

Fees		\$15,000	\$250,000	\$15,000	\$250,000	\$15,000	\$250,000
SDCs							
Grant							
Other							

Anticipated Long Term Expenses: The proposed improvements will improve overall system operations and maintenance. Having “new” pipes should decrease the need for difficult and instantaneous repairs and sewage spills.

Staff anticipates that some of these projects will be eligible for SDC funding to accommodate capacity improvements.

Description:

In most cases if a pipe is too small, it must be replaced with a larger size. However, if pipes are damaged, but sized correctly, trenchless technology may be an option to restore or upgrade pipes. Trenchless technology is typically completed as a liner (4’ to 24” pipes) or a resin coating (mostly smaller pipe sizes and manholes). There are specialty companies that specialize in this type of work. This series of projects will define maintenance problem sewer lines, pipes that are in areas difficult to replace (homeowner back yards or areas with many utility conflicts) and bundle these for a \$250,000 per biennium project. Current projects include: backyard along Oak from Lithia to B and potentially Tolman.

wastewater collections fund

Upsize Bear Creek Trunk Line from Wightman to Normal

Proj #: WCMP P1-1A

Duration: 2 years

Total Project Cost: **\$250,000**

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
-----------	-----------	-----------	-----------	-----------	-----------	-----------

Expenses:

Design	In house					
Construction	\$125,000	\$125,000				

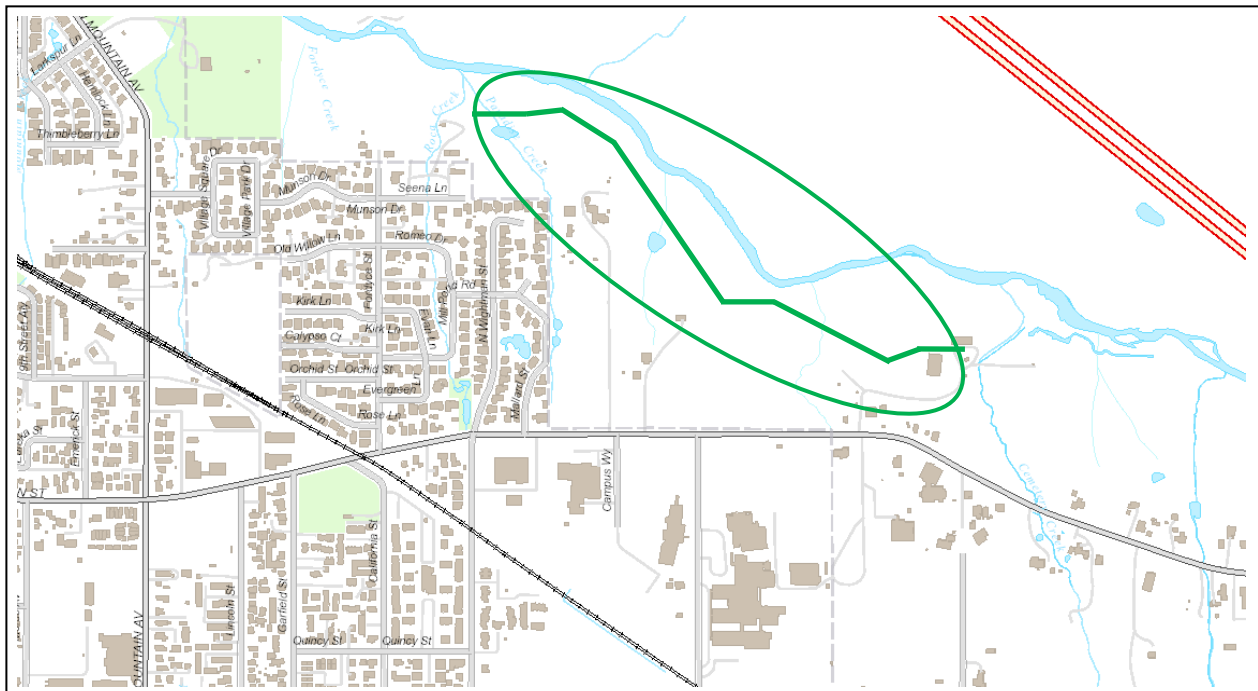

Revenues:

Fees	\$37,500	\$37,500				
SDCs (70%)	\$87,500	\$87,500				
Grant						
Other						

Anticipated Long Term Expenses: The proposed improvements will improve overall system operations and maintenance. Routine inspection and general maintenance will be required.

Description:

This area of the Bear Creek Trunk line between an extension of Normal and an extension of Wightman is served by a concrete line placed in the early 1960s and is undersized. This project will replace approximately 2,500 feet of existing 12-15 inch line with 15-18 inch PVC sewer line. The line will tie into the current parallel line at the end of the Wightman Street extension. Future needs for the remaining section of the trunk line will be evaluated. Staff will evaluate and recommend this for either in house crew work (704100) or contract.

wastewater collections fund

Repair Tolman Creek Road Sewer Main from Abbott to Ashland Street

Total Project Cost: **\$92,000**

Proj #: TBD

Duration: 1 years

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
-----------	-----------	-----------	-----------	-----------	-----------	-----------

Expenses:

Category	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
Design					In house	
Construction					\$92,000	

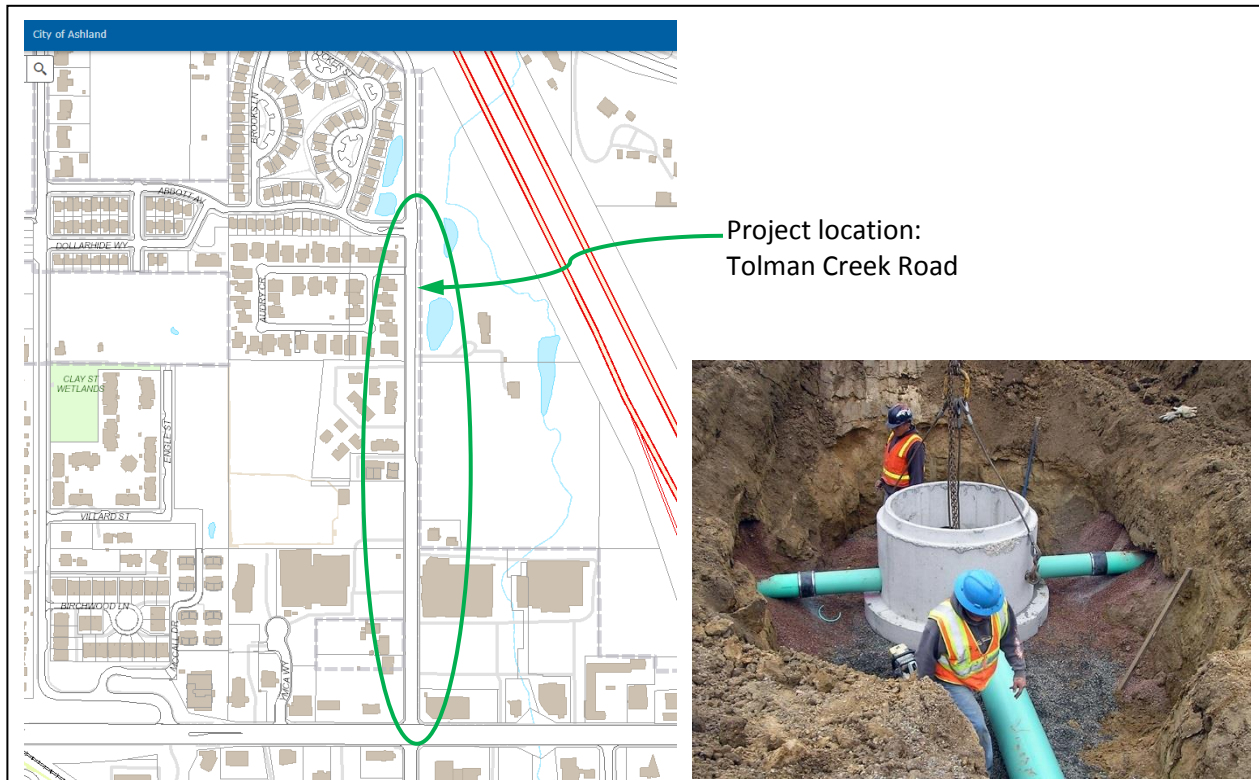

Revenues:

Category	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
Fees					\$92,000	
SDCs						
Grant						
Other						

Anticipated Long Term Expenses: The proposed improvements will improve overall system operations and maintenance. Routine inspection and general maintenance will be required.

Description:

This project will improve the flows in the 12-inch concrete line in Tolman Creek Road for the 1800-foot section between Abbott and Ashland Street. This might be a project for a trenchless liner depending upon the grades. This project will be verified with the Collection System Master Plan.

wastewater collections fund

Upsize Sewer Main A Street from 1st to 8th

Total Project Cost: **\$446,000**

Proj #: 2013-17 (P1-1D)

Duration: 2 years

Prior Yrs	FY2019-20	FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
-----------	-----------	-----------	-----------	-----------	-----------	-----------

Expenses:

Design					\$70,000	
Construction					\$76,000	\$300,000

Revenues:

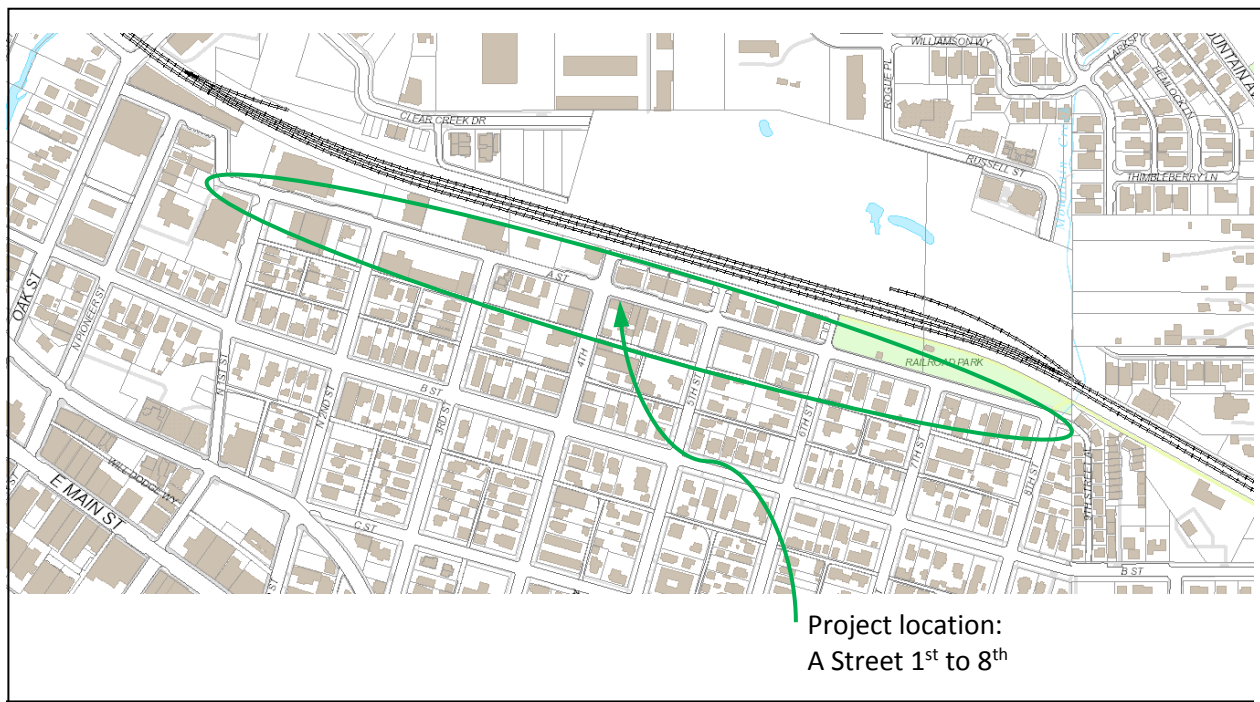

Fees					\$132,400	\$270,000
SDCs (10%)					\$14,600	\$30,000
Grant						
Other						

Anticipated Long Term Expenses: The proposed improvements will improve overall system operations and maintenance. Routine inspection and general maintenance will be required.

Staff is estimating 15% SDC and will verify with capacity and collection system master plan updates prior to construction.

Description:

This project is part of a larger street reconstruction that will combine utility work. The sanitary sewer portion is upsizing the line from the existing 10-inch clay to 12 or 15-inch PVC.

STORMDRAIN PROJECTS

storm water fund

Storm Drain Relocation - at Woodland & Indiana

Proj #: 704100

Duration: 1 year

Total Project Cost: **\$55,000**

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
-----------	---------	---------	---------	---------	---------	---------

Expenses:

Design		\$6,000				
Construction		\$49,000				

Revenues:

Fees		\$55,000				
SDCs						
Grant						
Other						

Anticipated Long Term Expenses: No additional long-term costs are anticipated.

Description:

The current storm drains in this location are in private property. The goal is to relocate the public portions of the system onto street rights of way along Indiana and Woodland. This will likely be completed with in-house crews.

storm water fund

Beach / Mountain Creek Storm Drain Improvements

Proj #: tbd

Total Project Cost: **\$660,000**

Duration: 10 years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design		\$15,000		\$15,000		\$15,000
Construction		\$150,000		\$150,000		\$150,000
Revenues:						
Fees		\$99,000		\$99,000		\$99,000
SDCs 40%		\$66,000		\$66,000		\$66,000
Grant						
Other						

Anticipated Long Term Expenses: Long-term costs are associated with the entire Beach Mountain Creek area; pipelines and riparian area.

Description:

The Beach and Mountain Creek sub-watershed areas have historically had high intensity flood potential and have been identified in earlier storm water master plans as being undersized. This series of project will be verified with the current storm water master plan and will be more specifically identified for deliberate projects. This is the first in a series of projects that will be undertaken in this area.

AIRPORT PROJECTS

airport fund

Oregon Department of Aviation Pavement Maintenance

Total Project Cost: **\$20,000**

Proj #: (TBD)

Duration: 1 year

	Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:							
Design							
Construction		\$20,000					
Revenues:							
Fees							
SDCs							
Grant		\$20,000					
Other							

Grant: This is a pass-through grant from the Federal Aviation Administration (FAA) to the Oregon Department of Aviation (ODA) for the ODA pavement maintenance program. The estimated maximum FAA grant match is anticipated to be \$20,000

Anticipated Long Term Expenses: continued maintenance of asphalt for the airport.

Description:

On a three year cycle the Oregon Department of Aviation manages a pavement inspection and maintenance program (PMP) for all Airports within the State of Oregon that receive federal funding for improvement projects. The ODA develops an airport specific project list and associated cost estimates then implements the project through public bid. The City of Ashland is slated to receive pass through grant funding from the FAA as a match requirement to the ODA PMP program for various pavement maintenance work including, crack sealing, asphalt patching and slurry seals.

airport fund

Oregon Department of Aviation Taxiway Rehabilitation

Total Project Cost: **\$2,230,700**

Proj #: (TBD)

Duration: 2 year

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design		\$200,000	\$96,700			
Construction			\$1,934,000			
Revenues:						
Fees		\$20,000	\$203,070			
SDCs						
Grant		\$180,000	\$1,827,630			
Other						

Grant: It is expected that the Oregon Department of Aviation will fund this as 90% grant. The City will apply for a Critical Oregon Airport Relief (COAR) grant that could fund 9% of the 10% remaining project cost.

Anticipated Long Term Expenses: include continued maintenance of asphalt for the airport.

Description:

The airports parallel taxiway is shown in the 2016 ODA Pavement Maintenance report as satisfactory to poor. Work elements for the project are general mill and overlay of the taxiway, new subsurface drainage, new taxiway edge lights and new mandatory lighted hold position signs. Project is intended to be grant funded at 90% with a 10% match through the Airport Fund.

ADMINISTRATION - FACILITIES PROJECTS

facilities fund (CIF)

City Facilities Miscellaneous Upgrades and Renovations

Proj #: 704100

Total Project Cost: **\$150,000 for next 6 years**

Duration: continual

Prior Yr	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25	
Expenses:							
Design	\$100,000	\$10,000	\$10,000	\$10,000	\$10,000	\$10,000	\$10,000
Construction	\$200,000	\$140,000	\$140,000	\$140,000	\$140,000	\$140,000	\$140,000
Revenues:							
Fees	\$300,000	\$150,000	\$150,000	\$150,000	\$150,000	\$150,000	\$150,000
SDCs							
Grant							
Other							

Anticipated Long Term Expenses: City facilities must be adequately maintained and have funds set aside and protected for future major expenses and capital repair items (roof, HVAC, electric, security, etc.).

Description:

This project allocates funding in the in-house capital improvements for miscellaneous upgrades, replacements and repairs for systems (HVAC, electrical, siding, flooring, etc.).

facilities fund (CIF)

Emergency Operations Center– Grove Priority Improvements

Total Project Cost: **\$205,000**

Proj #: TBD

Duration: 2+ years

	Prior Yr	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:							
Design		\$10,000					
Construction	\$45,000	\$50,000	\$100,000				
Revenues:							
Fees	\$45,000	\$35,000	\$100,000				
SDCs							
Grant							
Other	\$45,000	\$25,000					

“Other”: funds set aside for emergency operations in the Fire and Rescue budget. Staff will pursue a State Preparedness and Incident Response Equipment (SPIRE) Grant for the generator and applicable communications purchases. Fees: In this case the “fees” are from facility use fees.

Anticipated Long Term Expenses: This project makes immediate priority improvements for use of the Grove as a temporary Emergency Operations Center to provide a secure centralized location, with adequate communications for command and control during a disaster or emergency. Longer term (BN 2025-27) staff plans to start on the approved expansion for training and EOC at the Police Department. City facilities must be adequately maintained and have funds set aside and protected for future major expenses and capital repair items (roof, HVAC, electric, security, etc.).

Description:

The existing council chambers does not meet the criteria for an EOC. City administration has identified the Grove as an immediate alternate location to perform emergency response and management functions, with adequate conference/media room, communications room and various break out rooms. This project will install communications equipment, upgrade servers, install additional computer and phone ports in the main room and other satellite rooms for operational needs, purchase and install basic audio/visual components, acquire basic furniture needs for operation room(s) and kitchen appliances. The larger immediate expense is for the design and installation of a generator for required backup power supply.

facilities fund (CIF)

Pioneer Hall Priority Improvements

Total Project Cost: **\$195,000**

Proj #: TBD

Duration: 2+ years

	Prior Yr	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:							
Design	\$45,000	\$20,000					
Construction			\$130,000				
Revenues:							
Fees	\$45,000	\$20,000	\$130,000				
SDCs							
Grant							
Other							

“Other”: NA

Fees: In this case the “fees” are from facility use fees.

Anticipated Long Term Expenses: City facilities must be adequately maintained and have funds set aside and protected for future major expenses and capital repair items (roof, HVAC, electric, security, etc.). Repairs to the roof will be required in the future.

Description:

This project makes immediate priority improvements for seismic and ADA accessibility needs.

facilities fund (CIF)

City Hall Improvements and Renovations

Total Project Cost: **\$6,700,000**

Proj #: 2016-14

Duration: 6+ years

Prior Yr	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design	\$97,100	\$100,000	\$650,000			
Construction		\$100,000	\$200,000	\$2,000,000	\$3,000,000	\$550,000
Revenues:						
Fees	\$97,100	\$200,000	\$200,000			
SDCs						
Grant						
Other			\$650,000	\$2,000,000	\$3,000,000	\$550,000

“Other”: Bond issue. Total costs will be determined on Council direction in April 2019. Staff will update this sheet.

Anticipated Long Term Expenses: City facilities must be adequately maintained and have funds set aside and protected for future major expenses and capital repair items (roof, HVAC, electric, security, etc.).

Description:

The City has been discussing the reconstruction or relocation of City Hall for more than 20 years. The building is seismically vulnerable, lacks meeting space and has no room for growth. However, it is the earthquake vulnerability of the building that presents the most pressing problem. The interior of City Hall has been reconfigured several times since 1913 but has never had any structural improvements related to seismic mitigation. This initial project is for immediate repairs and seismic and system upgrades at the existing site.

facilities fund (CIF)

Hardesty Property Relocation and Paving

Proj #: 704100

Duration: 3 years

Total Project Cost: **\$300,000**

Prior Yr	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design	\$12,000					
Construction		\$100,000	\$100,000	\$100,000		
Revenues:						
Fees						
SDCs						
Grant						
Other		\$100,000	\$100,000	\$100,000		

“Other”: this project will be funded across the public works enterprise funds and maybe some from Fire if the City is able to use the site as a training area.

Anticipated Long Term Expenses: general site and yard maintenance

Description:

This project allocates funding to relocate the buildings from B-Street Yard and to complete paving as allowed by Jackson County.

facilities fund (CIF)

Community Center Priority Improvements

Proj #: TBD

Total Project Cost: **\$165,000**

Duration: 2+ years

Prior Yr	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design	\$15,000		\$20,000			
Construction			\$130,000			
Revenues:						
Fees	\$15,000		\$20,000	\$130,000		
SDCs						
Grant						
Other						

Fees: In this case the “fees” are from facility use fees.

Anticipated Long Term Expenses: City facilities must be adequately maintained and have funds set aside and protected for future major expenses and capital repair items (roof, HVAC, electric, security, etc.). General repairs and updating will be required in the future.

Description:

Engineering staff are completing a facilities evaluation and seismicity analysis in 2019. This project is intended to make immediate priority improvements for seismic and ADA accessibility needs.

facilities fund (CIF)

Briscoe Roof Replacement

Proj #: tbd

Total Project Cost: **\$300,000**

Duration: 1-2 years

	Prior Yr	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:							
Design			\$25,000				
Construction				\$275,000			
Revenues:							
Fees			\$25,000	\$275,000			
SDCs							
Grant							
Other							

Fees: Funds from rental income.

Anticipated Long Term Expenses: City facilities must be adequately maintained and have funds set aside and protected for future major expenses and capital repair items (roof, HVAC, electric, security, etc.). Currently the City performs the majority of the maintenances at approximately \$60,000 per year.

Description:

The City agreed to purchase the Briscoe School property in March 2018. This City block includes an existing playground and activities field and a 38,000 square foot building. The acquisition provides the City with the opportunity to guide future development on the site for a variety of uses. Currently OCDC occupies the facility. This project replaces the roof on the existing structure.

facilities fund (CIF) – police

Emergency Operations Center and Training – Police

Proj #: TBD

Duration: 3+ years

Total Project Cost: **\$1,500,000**

Prior Yr	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design						\$20,000
Construction						
Revenues:						
Fees						
SDCs						
Grant						
Other						\$20,000

“Other”: Bond issue or loan obtained from the Special Public Works Fund (Oregon IFA).

Anticipated Long Term Expenses: City facilities must be adequately maintained and have funds set aside and protected for future major expenses and capital repair items (roof, HVAC, electric, security, etc.).

Description:

This project in Phase 2 of a project started in 2011 and will move to secure funding and begin the construction of a permanent EOC and provide adequate training facilities for police and others. In May of 2011, Council awarded a contract to Straus & Seibert Architects for architectural design services for the remodel and expansion of the current station, as well as to provide plans for a seismically sound Phase 2 EOC/training facility addition to the current police building. The temporary EOC at the Grove will be utilized as an Alternate EOC in the future.

FIRE AND RESCUE PROJECTS

fire and rescue

Communications Tower

Total Project Cost: **\$335,000**

Proj #: tbd
Duration: 2-3 years

	Prior yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:							
Design		\$35,000	\$300,000				
Construction							
Revenues:							
Fees							
SDCs							
Grant							
Other		\$35,000	\$300,000				

“Other”: Anticipated grant funding through State Homeland Security Grants. Initial SHSG proposal to fund the study and design of the project (FY20) has been submitted.

Anticipated Long Term Expenses: tower and system maintenance.

Description:

Ashland Acres (Imperatrice Property) is the primary communication site for the City of Ashland (police, fire, public works, etc.) and also supports Medford Police. Currently communications are limited in key areas of the City and County. This situation would be improved with this project by constructing a communications tower of sufficient height to provide necessary coverage. This project would also address future space needs to link proposed trunk simulcast solutions for Jackson County. Permits for this work have already been approved by Jackson County.

fire and rescue / police

Public Safety Training Facility

Total Project Cost: **\$2,600,000**

Proj #: na

Duration: 4-5 years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design		\$25,000	\$75,000			
Construction				\$2,500,000		
Revenues:						
Fees		\$25,000	\$75,000			
SDCs						
Grant						
Other				\$2,500,000		

“Other”: Bond and/or grant funding and potentially shared costs with rural fire departments

Anticipated Long Term Expenses: This facility would be a City asset. There will be utilities and facility use fees associated with long term maintenance and replacement.

Description:

Design and construct a public safety training facility to address the current lack of any such facility for fire and police training within the City. The initial plan is for this training facility to be at the Hardesty property and work in FY21 and FY22 is to assess the usability and perform minor improvements. This would be a multi-discipline training site capable of allowing fire and rescue training and police tactics. Proper training is a vital and integral part of these services and must be accomplished on a regular and ongoing basis. This project will allow for the functional training needs of Ashland Fire and Police departments for their current and future needs. This project might be suited for the City’s Hardesty Property. The facility will also be offered as a training site for other fire and law enforcement agencies as well as other City departments. There may be a potential for revenue generation by charging usage fees as deemed appropriate.

ELECTRIC PROJECTS

electric fund

Mountain Avenue Sub-Station Purchase

Proj #: TBD

Total Project Cost: **\$900,000**

Duration: 1 year

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design						
Construction		\$900,000				
Revenues:						
Fees		\$900,000				
SDCs						
Grant						
Other						

Anticipated Long Term Expenses:

Description:

The City currently pays over \$175,000/year in transfer fees to BPA for the use of Mountain Avenue Sub-Station. The purchase of the station would eliminate these fees and create other cost saving opportunities.

electric fund

Mountain Ave upgrades

Total Project Cost: **\$1,000,000 TO \$1,500,000**

Proj #: TBD

Duration: 2+ years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design			\$150,000			
Construction				\$850,000		
Revenues:						
Fees			\$150,000	\$850,000		
SDCs						
Grant						
Other						

Anticipated Long Term Expenses:

Description:

Add capacity to the station after the City purchases. This will further cut costs paid to others for transfer services as well as add to available capacity for resiliency.

electric fund

Circuit Automation

Total Project Cost: **\$500,000**

Proj #: TBD

Duration: 2+ years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
-----------	---------	---------	---------	---------	---------	---------

Expenses:

Design					\$100,000	
Construction						\$400,000

Revenues:

Fees						
SDCs						
Grant						
Other						

Anticipated Long Term Expenses:

Description:

Installation of self-healing circuit switching equipment. Cost estimates are based on a preliminary study that OS Engineering did for the downtown plaza area. This technology could then be expanded on as resources and needs dictate. The installation of this equipment would greatly reduce outage times and improve reliability. Many outages could be restored without the need to call in personnel.

PARKS PROJECTS

parks and recreation

Parks Project Manager

Proj #: Unassigned

Duration: Ongoing

Total Project Cost: **\$360,000 for this 6-year block**

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25

Revenues:						
Fees						
F&B Tax	\$3475	\$25,000				
SDCs						
Grants Misc.	\$19,855	\$62,818				
OPRD Grant		\$127,182				

Explain "other": OPRD Grant

Anticipated Long Term Expenses: general parks maintenance

Description: This project will fund the construction and material of natural playground facility at the North Mountain Park Nature Center.

parks and recreation

Oak Knoll Improvements (Irrigation)

Total Project Cost: **\$92,850**

Proj #: Unassigned

Duration: 3+ years

	Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:							
Design							
Construction	\$52,850	\$20,000	\$20,000				
Revenues:							
Fees							
F&B Tax	\$52,850	\$20,000	\$20,000				
SDCs							
Grant							
Other							

Explain "other": NA

Anticipated Long Term Expenses: general parks maintenance

Description: This project will fund irrigation improvements at the Oak Knoll Golf Course.

parks and recreation

Ashland Creek Park Basketball Court

Total Project Cost: **\$75,000**

Proj #: Unassigned
Duration: 1+ years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design		\$10,000				
Construction		\$65,000				
Revenues:						
Fees						
F&B Tax		\$75,000				
SDCs						
Grant						
Other						

Anticipated Long Term Expenses: General pavement maintenance and striping

Description:

This project funds the second phase of the Ashland Creek Park Improvement. The second phase includes a basketball court, which may be half court or full depending the design of the court.

parks and recreation

0 East Main Park Development

Proj #: Unassigned

Duration: 2 years + ongoing

Total Project Cost: **\$950,000**

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design		\$50,000				
Construction		\$425,000	\$475,000			
Revenues:						
Fees						
F&B Tax			\$350,000			
SDCs						
Grant						
Other		\$475,000	\$125,000			

“Other”: Proceeds from sale of YMCA Park and 2505 Villard.

Anticipated Long Term Expenses: general parks maintenance

Description: This project will fund the development of the property at 0 East Main Street as a neighborhood park and a regional dog park.

parcs and recreation

Mace Property Trail

Total Project Cost: **\$250,000**

Proj #:

Duration: 2+ Years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
-----------	---------	---------	---------	---------	---------	---------

Expenses:

	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Design		\$25,000				
Construction			\$225,000			

Revenues:

	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Fees						
F&B Tax		\$25,000	\$225,000			
SDCs						
Grant						
Other						

Anticipated Long Term Expenses: general parks maintenance

Description:

This project will fund the design and construction of a regional trail connection through parks property, known as the "Mace Property." The project will consist of a paved trail that connect Oak Street, via Sleepy Hollow, to North Mountain Street.

parks and recreation

Dedicated Pickleball Courts

Total Project Cost: **\$175,000**

Proj #: Unassigned

Duration: 1+ years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design		\$25,000				
Construction		\$150,000				
Revenues:						
Fees						
F&B Tax		\$175,000				
SDCs						
Grant						
Other						

Anticipated Long Term Expenses: general court maintenance

Description:

This project will fund the improvement of several pickleball courts for the increased availability of pickleball courts in the community. The project will consist of new construction for dedicated courts at a location that has not been identified yet.

parks and recreation

Master Plan for all Parks

Proj #: Unassigned

Duration: 1 year

Total Project Cost: \$200,000

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
-----------	---------	---------	---------	---------	---------	---------

Expenses:

Design						
Construction						
Other	\$200,000					

Revenues:

Fees						
F&B	\$150,000					
SDCs	\$50,000					
Grant						
Other						

Anticipated Long Term Expenses: only implementing the plan

Description:

Perform a system wide master plan for all APRC facilities to identify short and long-term projects throughout the system and identify comprehensive levels of service goals for the parks division.

parks and recreation

Senior Center Improvements

Proj #: Unassigned

Duration: 2 years

Total Project Cost: **\$50,000**

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design						
Construction		\$25,000	\$25,000			
Revenues:						
Fees						
F&B Tax		\$25,000	\$25,000			
SDCs						
Grant						
Other						

Anticipated Long Term Expenses: general facilities operational and maintenance expenses

Description:

This project will fund improvements at Senior Center to provide increased space for recreation activities and could include, but won't be limited to, purchasing stand-alone classroom units or building additional square footage on the building.

parks and recreation

TID Irrigation

Total Project Cost: **\$100,000**

Proj #: Unassigned

Duration: 2 years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design		\$10,000				
Construction		\$40,000	\$50,000			
Other						
Revenues:						
Fees						
F&B		\$50,000	\$50,000			
SDCs						
Grant						
Other						

Anticipated Long Term Expenses: general irrigation maintenance

Description:

Explore and implement converting parks irrigation from potable to non-potable irrigation water with TID connections. This project will pay for design and installation including all appurtenances and other infrastructure required to complete the project.

parks and recreation

Japanese Garden

Total Project Cost: **\$1,500,000**

Proj #: Unassigned
Duration: 2+ years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design						
Construction	\$250,000	\$1,250,000				
Other						
Revenues:						
Fees						
F&B						
SDCs						
Grant						
Other	\$250,000	\$1,250,000				

“other”: Ashland Parks Foundation donation.

Anticipated Long Term Expenses: parks maintenance

Description:

APRC staff has been working with the Ashland Parks Foundation (APF) to evaluate a redesign of the Japanese Style Garden in Lithia Park. This project will fund the construction of the project. The design of the project was paid for by the Ashland Parks Foundation directly.

parks and recreation

Oak Knoll Playground

Total Project Cost: **\$250,000**

Proj #: Unassigned

Duration: 2 years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design						
Construction		\$125,000	\$125,000			
Revenues:						
Fees						
F&B Tax		\$125,000	\$125,000			
SDCs						
Grant						
Other						

Anticipated Long Term Expenses: general course and grounds maintenance

Description:

This project will fund improvements at the Oak Knoll Golf Course for a playground. The Oak Knoll neighborhood does not currently have a community park. Installing a playground at the golf course will provide the neighborhood with a community park within walking distance.

parks and recreation

Repair Butler Perozzi Fountain

Total Project Cost: **\$626,970**

Proj #: 000023

Duration: 4+ years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design	\$6,970	\$70,000				
Construction			\$550,000			
Revenues:						
Fees						
F&B Tax	\$6,970	\$70,000				
SDCs						
Grant			\$550,000			
Other						

Anticipated Long Term Expenses: general maintenance

Description:

This project will fund the repair of the Butler-Perozzi Fountain in Lithia Park. The Fountain is a prominent, well-known and historic feature in Lithia Park.

parks and recreation

Kestrel Park Bridge

Total Project Cost: **\$500,000**

Proj #:

Duration: 3 Years

	Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:							
Design							
Construction		\$25,000	\$475,000				
Revenues:							
Fees							
F&B Tax							
SDCs							
Grant		\$25,000	\$475,000				
Other							

Explain "other": anticipated Bear Creek Greenway Foundation grant

Anticipated Long Term Expenses: trail and bridge maintenance

Description:

This project will fund the design and construction of a pedestrian and bicycle bridge at Kestrel Park from the west side of Bear Creek to Kestrel Park on the east side of Bear Creek. This bridge is part of the eventual expansion of the Bear Creek Greenway and will provide much needed pedestrian and bike access from both sides of the creek. APCR is partnering with the Bear Creek Greenway Foundation to accomplish this project which will largely funded by grants.

parks and recreation

Daniel Meyer Pool – Rebuild and Cover

Total Project Cost: **\$4,000,000**

Proj #: Unassigned

Duration: 5 years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design		\$115,000				
Construction			\$3,885,000			
Revenues:						
Fees						
F&B Tax		\$115,000				
SDCs						
Grant						
Other			\$3,885,000			

Explain "other": Proposed Bond

Anticipated Long Term Expenses: maintenance and operational requirements

Description:

This project will provide funding for construction of a new municipal swimming pool and covering.

parcs and recreation

Lithia Park Improvements (Winburn Sidewalk)

Proj #: 000073

Total Project Cost: **\$175,000**

Duration: 2 years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design		\$25,000				
Construction		\$50,000	\$100,000			
Revenues:						
Fees						
F&B Tax		\$75,000	\$100,000			
SDCs						
Grant						
Other						

Anticipated Long Term Expenses:

Description:

This project will fund needed improvements to Lithia Park based on the Lithia Park Master Plan. Winburn Way through Lithia Park is a very popular route for walkers, especially those with dogs. Dogs are not allowed in the interior of Lithia Park; Winburn Way is the only route through the park where dogs are allowed, due to the fact that it is a public street. The street lacks sidewalks over most of its length in the upper park area, requiring people to walk in the street. This project will provide for the design and future construction of an appropriate sidewalk to provide a safer alternative to walking in the street.

parks and recreation

Ashland Creek Park, Public Works Requirement

Proj #: 000078

Duration: 1 year

Total Project Cost: \$35,000

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design						
Construction		\$35,000				
Revenues:						
Fees						
F&B Tax		\$35,000				
SDCs						
Grant						
Other						

Anticipated Long Term Expenses: general parks maintenance

Description: This will fund the second phase of construction (public works requirements) at Ashland Creek Park.

parks and recreation

Lincoln Park Improvements

Total Project Cost: **\$50,000**

Proj #: Unassigned

Duration: 1+ years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
-----------	---------	---------	---------	---------	---------	---------

Expenses:

Design						
Construction		\$50,000				

Revenues:

Fees						
F&B Tax		\$50,000				
SDCs						
Grant						
Other						

Anticipated Long Term Expenses: general course and grounds maintenance

Description:

This project could fund the upgrade of grounds and irrigation at the Lincoln School Park site. The park is currently in the ownership of the school district; however, if APRC can successfully work with the district to turn the park over, APRC would use these funds to upgrade the park which has not been maintained in several years.

parks and recreation

Mountain Bike Skills Park and Pump Track

Total Project Cost: **\$250,000**

Proj #:

Duration: 3 Years

Prior Yrs	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Expenses:						
Design						
Construction		\$25,000	\$225,000			
Revenues:						
Fees						
F&B Tax						
SDCs						
Grant		\$25,000	\$225,000			
Other						

Explain "other": anticipate grant funding

Anticipated Long Term Expenses:

Description:

This project will fund the design and construction of a regional bike skills park and pump track. The location for the project has not been selected yet; however, the project is being considered for one of two existing park locations. A skills park helps people who are new the sport and younger children learn the necessary skills at a low-risk facility prior to using the larger mountain bike trail network in Ashland.

City of Ashland Capital Improvements Program: 2019-2039

City Council Meeting April 2, 2019

CIP - Overview

➤ Capital Plans

- Utilize Master Plans on a 20 year horizon
- Update every 5-8 years
- Evaluate changes every budget cycle and verify project/program priorities
- Assess changes in development
- Include Council goals and priorities

➤ 20 Year CIP

- Layer project priorities
- Assess utility components with street improvements

➤ Budgeting

- 2 year appropriation; forecast spending
- Capital Program focus on 6 years
 - with the ability to forecast through the 20 year planning horizon
- Update every 2 years
- Validate priorities and project timing
- Capital Plan approved by Council
 - Ensures forward planning
 - Allows multi-year programming
 - Necessary for larger capital projects that span more than one budget cycle

CIP – Synchronization Capital Plans, Rates and Operations

➤ Financing and Rates

- Ensure a financing plan is included in each Master Plan
 - Rates and fees
 - Grants or loans
 - Other funding options
- Evaluate long term costs
- Plan ahead for rate increases
- Smooth the cost of operations and minimize dramatic increases

➤ Maintenance vs Capital

- CIP allows for planned capital expenses
 - Streets and pavement condition
- Should reduce the need for major unplanned or emergency maintenance expenses

➤ Operational Expenses

- Generally, should be known and predictable

CIP – Master Plans links

Transportation System Plan (TSP) – 2013 ([link](#))

- Transit Feasibility Completed March 2019
- Full TSP proposed for FY20-21

Comprehensive Water Master Plan – 2012 ([link](#))

- Currently being updated – completion in June 2019
- Water Management and Conservation Plan – 2013 ([link](#))
 - updated by staff March 2019

Comprehensive Sanitary Sewer Master Plan – 2012 ([link](#))

- Facilities Assessment in progress – complete October 2019
- Collection system master plan proposed for FY20

Storm Water and Drainage Master Plan – 2000 ([link](#))

- Update in process – completion in October 2019

Airport Layout Plan (ALP) – 2005 ([link](#))

- Update in process – completion July 2019

Facilities – 2008 Master Plan ([link](#))

- City Hall Upgrades 2018-19

Electric Department 10 Year Planning Study ([link](#))

- System Plan proposed FY20-21

Parks and Recreation

- Lithia Park Master Plan underway – completion in late 2019 ([link](#))
- All Parks Master Plan proposed FY21

CIP – Spreadsheet by Fund

Tricks on how to read the following CIP spreadsheets

Color coding for the project lines:

White – the top lines in white are projects that should be completed in FY19 (current BN)

Yellow – this upcoming BN 2019-21 (FY 20 and FY 21)

Green – BN 2021-23 (FY 22 and FY 23)

Blue – BN 2023-25 (FY 24 and FY 25)

Peach – BN 2025-27 (FY 26 and FY 27)

Purple – BN 2027-29 (FY 28 and FY 29)

Gray – ongoing costs

White – the second 10-years FY 30 to FY 39

Note that is a projects starts in one color and the total is in another color is spans different years

SDC – Systems Development Charges for that Fund

Fees and Rates; Street User fees, water or sewer rates, etc.

Other is defined on each sheet (typically grants, Food and Beverage Tax or something special)

All costs are in current 2019 dollars (not inflated for year of construction)

Street Fund – Roadway Improvements

Fees & Rates, Grants and Gas Tax Funded

Anticipate new projects with the TSP Update

20 year

4	Project Description				
6	Roadway Improvements	Project Totals	Street SDC	Other	Fees & Rates
7	N. Main Refuge Island	\$ 80,000	\$ -	\$ -	\$ 80,000
8	Railroad Crossing Improvements; Hersey & Laurel	\$ 749,754	\$ -	\$ 255,642	\$ 494,112
