Policies, Plans and Goals Supported:

2. Provide, promote, and enhance the security/safety, environmental health, and livability of the community. (Quality of Life Administrative Goal).

Background and Additional Information:

City staff was initially contacted in late October of 2017 by a representative from Uber after Medford adopted its new ordinance regulating vehicles for hire. Uber's representative proposed that Ashland adopt Medford's exact regulatory regime since the two cities are in such close proximity to each other, or that Ashland deregulate vehicle for hire services altogether, in effect leaving regulation of vehicles for hire to Medford.

A number of cities in Oregon have chosen to adopt provisions regulating vehicles for hire services. Portland, Salem, Corvallis, Bend, and Medford are examples. Eugene and Roseburg are currently considering such regulations.

Ashland has unique transportation services needs for a city of its size. This is due in large part to the thousands of tourists who visit each year. According to the Oregon Shakespeare Festival's (OSF) Long Range Plan for 2016-2025, OSF draws over 400,000 visitors to Ashland every year. OSF's theatres have the capacity to seat over 2,000 patrons on most nights during the summer.

Proposed Ordinance No. 3152 allows TNCs to operate in Ashland while protecting community safety. It largely mirrors the vehicle for hire model recently adopted by Medford. However, it incorporates a few additional safety measures found in larger cities such as Portland and Seattle. These additional safety measures include: a 10-year look back for criminal convictions, required vehicle safety inspections, a limitation on the number of hours a driver may operate a vehicle within a 24-hour period, and a requirement to provide Wheelchair Accessible Vehicles upon request. The permit fees are also based largely on Medford's model, although the fees are somewhat higher for agencies based on the number of drivers currently operating in Medford. The fees for drivers of fully electric vehicles or Wheelchair Accessible Vehicles would be waived under the proposed ordinance.

One additional change the Council may want to consider is whether to exempt vehicle for hire agencies and drivers from the business license requirement found in AMC Chapter 6.04.

The major TNCs, Uber and Lyft, as well as all currently licensed taxi companies, were provided with a copy of the proposed ordinance. Uber objected to the additional requirements not found in Medford's model as well as the requirement that drivers obtain a permit from the City of Ashland. A copy of the comments from its representative is attached. Lyft objected to the 10-year look back for criminal convictions and the vehicle inspection requirement. Lyft is intending to submit written comments on the proposed ordinance in advance of the May 1 Council meeting.

Proposed Ordinance No. 3152 was taken before the City's Transportation Commission at its April 19, 2018 meeting. While the Commission did not formally vote on an official recommendation to the City Council, Commission members expressed support for the proposed ordinance as written. One member commented that she would like the background checks for drivers to be finger-print based as currently required by the AMC. Several members expressed an interest in mandating some form of review of the efficacy of the ordinance after a reasonable period of operation.

Katrina,

I was out of the office yesterday at the State Autonomous Vehicle Task Force meeting, and am just getting to this now. Here is our initial feedback.

Here are my comments:

Uber would not be able to begin offering pick-up service in Ashland if the draft ordinance is adopted as written. As previously communicated to the city, the ordinance needs to be brought into 100% policy alignment with Medford's ordinance (attached) to create a consistent regional service area. The major areas of difference in the current draft that need to be addressed:

1. Align background check requirement language exactly including look back to seven years.
2. Eliminate vehicle inspection requirement.
3. Align language on required vehicle trade dress.
4. Eliminate requirement for vehicle for hire drivers to obtain a \$60 permit. (we could take this off the list if Medford and Ashland could agree to reciprocity so that drivers only need to obtain one permit. Two permits within a single service area is unworkable.)
5. Align language regarding services for people with disabilities. If the commission wishes to strengthen this language over Medford, here is a suggestion from the City of Corvallis:

Taxi companies and TNCS and their drivers shall operate in a manner that ensures the equal protection, treatment, and representation of all persons without discrimination, including, but not limited to, age, citizenship status, color, familial status, gender identity or expression, marital status, mental disability, national origin, physical disability, race, religion, religious observance, sex, sexual orientation, and source or level of income.

Let me know if you have any questions.
