10x20

Mayor, recently you told us that more information would be coming regarding 10 x 20

I can see that it is happening, thank you. I am very pleased the process is moving forward.

I recently read that Oregon is NOT going to meet its 2020 emission reduction goal. More action is need throughout the state and Ashland has an opportunity to be at the forefront of positive interventions.

and now I can reply to my friends that we are seeing the progress we were promised when you all passes this ordinance"
