and select "like" to
receive our updates.

Want to see where tree thinning was completed as part of the Ashland Forest Resiliency Stewardship Project (AFR) to prevent severe wildfire and maintain a healthy watershed? Interested in helping further protect our large, old trees?

On **Thursday, July 18th** from **8:30 am to 12:30 pm** join AFR project staff for a work party in the Ashland Watershed. Come participate in a hands-on effort to protect big, old trees by removing accumulated bark and branches that could threaten their health during future fires and controlled burning. You'll learn about ecology and

management of dry forests in our city's watershed.

For more information and to sign up, contact

Alicia Fitzgerald at 541-552-2286 or email
