

PRE-APPLICATION CONFERENCE INFORMATION SHEET & SUBMITTAL REQUIREMENTS

PURPOSE

Pre-application conferences are required for all projects that require a Type I, Type II or Type III planning actions as defined in Chapter 18.5.1 of the Ashland Municipal Code. Definitions for Type, I, II and III planning actions can be found at www.ashland.or.us/code.asp. If you are unsure if your project falls into any of the categories listed, please contact the Planning Division of the Community Development Department for assistance at (541) 488-5305.

The purpose of the pre-application conference is to allow the applicant and the City Staff to meet and discuss the proposed project early in the development process. This early review and meeting helps to identify opportunities and key issues prior to preparation and submission of the Planning application. Before a proposal goes before the Planning Commission for approval, most of the issues can be worked out so that the project is ready for review with few additional changes or conditions needed.

PROCESS

Requests for a pre-application conference must be submitted to the Planning Division a minimum of two weeks in advance of the scheduled meeting. Pre-application conferences are scheduled for Wednesdays between 2:00 and 4:00 PM. These conferences are scheduled on a first come – first served basis. **A time cannot be reserved without payment and a complete submittal as described on the attachment.**

The narrative and the plans are then electronically sent to each concerned department to review and return comments to the Project Planner. Where applicable, other agencies such as the Oregon Department of Transportation and Jackson County will be invited to comment.

At the conclusion of the pre-application conference, you will receive a list of comments on what you will need to submit for your planning action. In some cases, the Project Planner may recommend waiving the pre-application meeting if the pre-application comments are self-evident and there are no critical issues.

Once the pre-application comments are issued, you have six months to submit for your planning action. If more than six months elapse from the time of the conference to your planning application, a second conference may be required due to potential code changes.
