Subject : normal neighborhood plan**To :** john@council.ashland.or.us**Cc :** brandon goldman <brandon.goldman@ashland.or.us>

I am writing to express my concerns regarding the proposed normal neighborhood plan. As I understand it, it will add 450 dwelling units when annexed to the city of Ashland.

That's a lot of new homes, leading to a significant increase in traffic especially along Ashland St and E Main St. How will this increase in population impact on roads, sewers, water treatment. How will wetlands and habitats be impacted. Of greatest concern is the significant increase in water usage at a time when we are already stressed regarding current water supplies.

I support the proposal to table approval of the normal neighborhood project to allow for more education of residents regarding city wide impacts.

Thank you for your serious consideration of these issues.
