City of Ashland Business License No.:	
Required upon bid award, must be obtained before work begins	
CCB License No.:	
CCB Expiration Date:	
ODOT Prequalification Date:	

### Important Application Information

To be eligible to bid City of Ashland public improvement projects this application must be and **received at least 5 days** prior to the first anticipated bid opening date.

Prior to starting work in the right-of-way all contractors are required to have a current, approved prequalification application on file with the City of Ashland Public Works Engineering. City of Ashland Business License is required upon bid award, must be obtained before work begins

ODOT Prequalification may be submitted for the City of Ashland contractor prequalification. Applicant must fill out page one, notarize the affidavit on the last page of this application, and include ODOT's Prequalification letter.

**The affidavit must be notarized. Signature must be of an individual who is authorized to execute bids and contracts.**

**INTRODUCTORY STATEMENT:**

In accordance with the statutes of the State of Oregon, every public contracting agency contemplating receiving bids for and awarding any contract for a public improvement may require any prospective bidder (herein referred to as applicant) to submit a full and complete statement concerning their equipment and experience in constructing public improvements. The application and questionnaire forms which are bound herewith comply with the requirements of public contracting rules and must be used in determining the qualifications of applicants and in assigning limits as to the size and kinds of projects for which the applicant may submit bids. The applicant should use care and integrity in preparing this information. The public contracting agency may make independent inquiries concerning the contractor's past performance and/or capabilities.

**Manner of Preparing and Filling in Forms:**

This application shall include equipment and experience information for only the specific single business organization or entity which is applying for prequalification and which would be the signatory on a contract with the public contracting agency.

It shall be the responsibility of the applicant to return all pages whether applicable or not. Failure to do so may be grounds for rejection. All answers and entries shall be specific and complete in detail.

The prequalification application shall be signed by the applicant and sworn to as the form indicates. The signatory of the statement guarantees the truth and accuracy of all statements and of all answers to questions. **An original signed application must be sent to the public contracting agency (photocopy or fax signatures will not be accepted).**

**Use of Attachments:**

Schedules, reports and other forms of prequalification statement may be used as attachments to the prescribed form, provided that the information contained therein specifically includes the information required by this form.

**Place of Submission and Time of Submission:**

Prequalification applications shall be submitted by mail or delivered to the Community Development Engineering Services Building located at 51 Winburn Way, Ashland OR 97520. Mailing address: 20 East Main Street, Ashland OR 97520. Prequalification applications may be submitted Monday through Friday, 8:00 AM to 4:30 PM.

**Appeal Due to Denial or Revocation of Prequalification:**

In case the applicant's application for prequalification is denied or in case an existing prequalification is revoked, the applicant may appeal the denial or revocation in accordance with the rules adopted by the Department of Administrative Services or the appropriate local contract review board.

**Notification of Action Taken:**

The applicant will be notified, in writing, of the action on their application. Applicant will then be allowed to bid on such projects as are within the limits of size and kind of work for which applicant has been declared qualified.

**Period during which a Qualified Applicant Remains Qualified:**

An applicant who has been notified of prequalification for projects of a given size and kind will usually remain qualified until the date specified in the notification. The public contracting agency may limit prequalification approval to individual public improvement projects. Unless such applicant is otherwise notified by the public body the applicant will be permitted to submit bids for any and all projects of said kind and size for which bids are to be received. The public body may from time to time require new or revised prequalification applications and have them approved prior to allowing a bid.

**Requirement of Continuing Prequalification:**

Applicants who have once been qualified with an agency requiring prequalification and who desire to maintain an uninterrupted prequalification standing are required to submit a new application periodically as required by such agency (September 1<sup>st</sup> to August 31<sup>st</sup> biennium cycle). Uninterrupted prequalification is contingent upon favorable action on the application. A prequalification may be revoked under the provision of ORS 279C.375.

**Changes:**

Requests for revision of the prequalification standing of any applicant will be considered whenever the applicant can make a showing of materially improved ability, but not more often than once in three months. Major changes must be submitted with a new prequalification application. If the changes are minor, such changes may be requested to the public contracting agency. Minor changes involve, but are not limited to, company name, adding or deleting classes of work. Contact Public Contracting Agency for specific procedures when there are changes to the information submitted in the application. **With or without a request from a prequalified applicant, the prequalification limitation on class of work or size of project MAY be reviewed and increased or decreased as found appropriate. The prequalified applicant will be notified in writing of any such revision.**

**Nonresident Bidders:**

ORS 279A.120 (3) states: When a public contract is awarded to a nonresident bidder and the contract price exceeds \$10,000, the bidder shall promptly report to the Department of Revenue on forms to be provided by the department the total contract price, terms of payment, length of contract and such other information as the department may require before the bidder may receive final payment on the public contract. The contracting agency shall satisfy itself that the requirement of this subsection has been complied with before the contracting agency issues a final payment on a public contract.

The form referred to is the Application for Final Payment Release. It is available for download from the Department of Revenue web site at: <http://www.oregon.gov/DOR/BUS/docs/102-050.pdf>

## CITY OF ASHLAND WORK AND PERMITTING INFORMATION

All contractors performing work in the Public Right-of-Way whether under contract or by permit, must have an **approved** and **current** Contractor's Prequalification form on file with the Public Works Department of the City of Ashland. The contractor must be pre-approved to perform the work for which they are bidding/applying before a contract will be entered into or a permit will be issued.

Any Contractor or Subcontractor applying for Prequalification must have a current CCB license in good standing. A City of Ashland business license is required upon bid award and must be obtained before work begins.

In the event that the entity actually performing the work is to be a Subcontractor, the General Contractor must fill out any necessary permit application form(s) stating that a Subcontractor will be employed. The General Contractor shall specify the name of the Subcontractor and list the Sub's CCB license number on the permit application form. The Subcontractor must also be pre-qualified to perform work in the Public Right-of-Way.

**Contractor Evaluation:** The City of Ashland will regularly evaluate the performance of Contractors working in its right-of-way based on reference checks and the Contractor's level of responsibility regarding past projects to make determinations about the Contractor's eligibility for future prequalification.

**Miscellaneous Construction (sidewalk) Permits obtained by Property Owner:** Property owners wishing to obtain a permit to perform concrete work in the public right-of-way (sidewalk) without employing the services of a pre-qualified contractor may do so at their own risk. All work performed by the property owner must meet the same standards and specifications as is required of a licensed contractor; however, property owners are not required to obtain pre-qualification. Any work performed by a property owner which fails to pass City inspection is subject to the requirement of removal and replacement at the discretion of the City of Ashland Engineering Department. The costs associated with this action will be the sole responsibility of the property owner. Property owners will also be held accountable for any work performed without the proper permit(s) and will be charged at 1.5 times that of the current rate for the permit(s).

**Substandard Workmanship:** In the event of unsatisfactory work performed under permit, a City of Ashland representative will take pictures and document the failings of the work. The pictures and subsequent site investigations will be considered by Engineering Department staff members in order to determine the appropriate course of action to be taken to resolve the substandard work.

If the work is determined by staff to be unacceptable, a verbal directive will be given to the Contractor or Subcontractor to correct the work and bring it to departmental/industry standards. If action is not taken to correct the defect within 14 days of verbal notice, then a written warning will be sent to the Contractor defining the necessary corrective measures and a timeline for completion. It will also state that further action will be taken if corrective measures are not undertaken in a timely manner.

If the Contractor is un-responsive and fails to correct the deficiencies within the timelines for completion given in the first letter, then a second letter will be sent placing the Contractor on notice that their Surety Agent will be contacted and directed to complete the sub-standard work. If further actions are required, the Contractor will be placed on probation for a period of 1 year with the condition that any further failures (i.e. not meeting department/industry standards) will result in a permanent ban from work for the City of Ashland in its public right-of-way.

**Failure to Obtain Permit:** In the event a City of Ashland representative should discover that construction work is being, or has been performed in the Public Right-of-Way without proper application and permit issue, a verbal warning will be given to the Contractor/Owner requiring them to obtain the proper permit(s). The contractor/owner will be charged at 1.5 times that of the current rate for the proper permit(s).

For a second offense, the Contractor will be placed on probation for a period of 1 year. Any further failure to obtain proper permit(s) will result in a permanent ban from work in the City of Ashland's public rights-of-way.

**1 Please fill in the classes of work you wish to work on. Classes of work include, but are not limited to, Airports, Highways, Streets and Roads. \*If more space is required, attach additional sheets\***

For Each Class of Work

- A. Enter the maximum dollar amount of work you are capable of performing.
