

**(S10) Siskiyou Boulevard Pedestrian Crossing Evaluation and Feasibility Study**

**Description:**

**Evaluate pedestrian flows, crossing demand, and safety along Siskiyou Boulevard from Highway 66 to Beach Street. The study should evaluate the adequacy of the planned pedestrian improvements along Siskiyou Boulevard (the rectangular rapid-flash beacons at crosswalks and diagonal crossing at the Indiana-Wightman intersection) once the new dormitory and dining hall are operational for existing and future forecast pedestrian demand. The need, ideal location, feasibility and cost of a grade-separated crossing should be evaluated.**

**Cost: \$35,000**

**Included in the Constrained Plan: Yes**
