

Meeting of Outreach Subcommittee, Conservation and Climate Outreach Commission

Sept. 19, 3 pm at Geos Institute, 84 4th St, Ashland, OR

Commission Members attending: Marni Koopman, Marion Moore

Members of public attending: Huelz, Julie Caldwell

Discussion on Larry's video:

Larry emailed to say he is done filming, and is now editing.

Discussion on neighborhood meetings:

Marni suggested training others to present at meetings.

Discussion with Julie Caldwell:

Julie has been working with the Food Waste Solutions group (started after a Pachamama Drawdown class). They have a grant from City of Ashland, and will apply Oct. 4 for a DEQ grant. The DEQ grant will be used, in part, to set up a web site that would have info on food waste, and also on the Ashland CEAP and other local resources for climate action. Julie's group is also planning to go door-to-door and/or set up climate clubs to discuss food waste and other climate change solutions.
