

Feasibility Criteria

1. Logistical (ease or difficulty of making the on the ground changes), *Maintenance*
2. Political (public & neighbor support or opposition) *trade-offs*
3. Regulatory (for example, multiple jurisdictions, rule and/or ordinance changes required, conflict with or supported by existing documents & studies)
4. Environmental (for example, geological studies, fire considerations, sensitive or endangered species)
5. *Financial*
