Lower Wonder Bailout trail

[Lowest bailout option through quarry](#)

Specific to the Lower Wonder Bailout trail, the option to the NORTH has an EXISTING trail already, which I discovered while hiking yesterday. I'm sure this is the trail Priscila Franco identified as being within sight of the lower switchbacks. It shows little sign of use and has several downed logs. Regardless, this trail can be walked top to bottom and is built into a much larger, old skid road 6-10 feet wide similar to other roads in the area, if you're familiar with the amount of roads crisscrossing the watershed from the logging days.
