Statement of Special Inspection Agreement

This agreement shall be submitted by permit applicants of projects requiring special inspection and/or testing per Chapter 17 of the State of Oregon Structural Specialty Code (OSSC).

Project Name:	
Project Address:	
Building Permit #:	Date Issued:
Special Inspector:	Inspection Type:
Special Inspector:	Inspection Type:
Special Inspector:	Inspection Type:
Percentage of Work Requiring Period Inspection:	

BEFORE A PERMIT CAN BE ISSUED: The registered design professional in responsible charge, or qualified person approved by the building official for construction not designed by a registered design professional, shall complete: this agreement, including the Statement of Special Inspections, and a Statement of Special Inspection Schedule. A pre-construction conference with the parties involved may be required to review the special inspection requirements and procedures.

APPROVAL OF SPECIAL INSPECTORS: Special inspectors shall have no financial interest in projects for which they provide special inspection. Each special inspector shall submit their qualifications to the building official. The building official shall approve each special inspector prior to permit issuance and prior to performing any duties. Special inspectors shall display identification, as stipulated by the building official, when performing the function of a special inspector.

Special inspection and testing shall meet the minimum requirements of OSSC Chapter 17. The following conditions are also applicable:

A. Duties and responsibilities of the Special Inspector

1. Observe Work

The special inspector shall observe the work for conformance with the building department approved (stamped) design drawings and specifications and applicable workmanship provisions of the OSSC. Architect/engineer reviewed shop drawings and/or placing drawings may be used only as an aid to inspection. Special inspections are to be periodic or continuous as identified in the Statement of Special Inspections.

2. Reporting (1704.2.4)

The special inspector shall keep records of inspections and shall bring non-conforming items to the immediate attention of the contractor and note all such items in the daily report. If any item is not resolved in a timely manner or is about to be incorporated in the work, the special inspector shall immediately notify the building department by telephone or in person, notify the engineer or architect, and post a discrepancy notice.

3. Furnish Daily Reports

On request, each special inspector shall complete and sign both the special inspection record and the daily report for each day's inspection to remain at the job-site with the contractor for review by the building department's inspector.

4. Furnish Weekly Reports

The special inspector or inspection agency shall furnish weekly reports of tests and inspections directly to the building department, architect and engineer of record, and others as designated. These reports must include the following:

- a. Description of daily inspections and tests made with applicable locations;
- b. Listing of all non-conforming items;
- c. Report on how non-conforming items were resolved or unresolved as applicable;
and
- d. Itemized changes authorized by the architect, engineer and building department if not included in non-conforming items.

5. Furnish Final Report

The special inspector or inspection agency shall submit a final report to the building department stating that all items requiring special inspection and testing were fulfilled and reported and, to the best of his/her knowledge, in conformance with the approved design drawings, specifications, approved change orders and the applicable workmanship provisions of the OSSC. Items not in conformance, unresolved items or any discrepancies in inspection coverage (i.e., missed inspections, periodic inspections when continuous was required, etc.) shall be specifically itemized in this report.

B. Contractor's Responsibilities

1. Notify the Special Inspector

The contractor is responsible for notifying the special inspector or agency regarding individual inspections as identified in the statement of special inspection. Adequate notice shall be provided so that the special inspector has time to become familiar with the project.

2. Provide Access to Work and Approved Plans (1704.2.2)

The contractor is responsible for providing the special inspector access to approved plans at the job-site.

3. Retain Special Inspection Records

The contractor is also responsible for retaining at the job-site all special inspection records submitted by the special inspector, and providing these records for review by the building department's inspector upon request.

4. Statement of Responsibility for Construction of Force-Resisting System (1704.4)

Construction of a wind- or seismic-resisting component listed in the statement of special inspections requires submittal of a written statement of responsibility by the Contractor.

5. Records

The contractor is also responsible for retaining at the job-site all special inspection records submitted by the special inspector, and providing these records for review by the building department's inspector upon request.

C. Building Department Responsibilities

1. Approve Special Inspection

The building department shall approve all special inspection and special inspection requirements.

2. Monitor Special Inspection

Work requiring special inspection and the performance of special inspectors shall be monitored by the building department's inspector. His/her approval must be obtained prior to placement of concrete or other similar activities in addition to that of the special inspector.

3. Issue Certificate of Occupancy

The building department may issue a Certificate of Occupancy after all special inspection reports and the final report have been submitted and accepted.

D. Owner Responsibilities (or Owners Agent)

The owner or the Registered Design Professional in Responsible Charge acting as the owner's agent shall:

1. Obtain and fund special inspection services by contract with an *agency* approved by the Building Official.
2. Submit the signed Special Inspection and Testing Agreement to the building official prior to permit issuance.
3. Submit the Statement of Special Inspection to the building official prior to permit issuance.
4. Obtain and fund structural observation by engineer of record if required by Chapter 17 of the OSSC.

E. Engineer or Architect of Record Responsibilities (design may be by a qualified person approved by the building official for construction not designed by a registered design professional):

1. Provide a Statement of Special Inspection per 1704.3.
2. The engineer or architect of record shall include special inspection requirements on the plans and specifications.

ACKNOWLEDGEMENTS

I have read and agree to comply with the terms and conditions of this agreement.

Summary of Special Inspection, Testing, Contractor Statement of Responsibility, and Structural Observation

(Per the 2022 Oregon Structural Specialty Code)

NOTE: Fill out and attach Schedule of Inspection Form

General:	
	Contractor's Statement of Responsibility – 1704.4 Construction of a Main Wind or Seismic Force-Resisting System component listed in statement of Special Inspection requires Contractors Statement of Responsibility.
	Structural Observation by Design Professional – 1704.6
Special Inspections:	
	Shop Fabrication of Load Bearing Members –1704.2.5 & 1704.2.5.1
	Steel Construction – 1705.2
	Concrete Construction – 1705.3
	Masonry Construction – 1705.4
	Wood Construction – 1705.5
	Soils – 1705.6
	Deep Driven Foundation – 1705.7
	Cast-in-Place Deep Foundation – 1705.8
	Helical Pile Foundations – 1705.9
	Structural Integrity of Deep Foundation Elements – 1705.10
	Fabricated Items – 1705.11
	Special Inspections for Wind Resistance – 1705.12
	Structural Wood – 1705.12.1
	Cold-Formed Steel Light-Frame Construction – 1705.12.2
	Wind-Resisting Components – 1705.12.3
	Special Inspection for Seismic Resistance – 1705.13
	Structural Steel – 1505.13.1
	Seismic Force-Resisting Systems – 1705.13.1.1
	Structural Steel Elements – 1705.13.1.2
	Structural Wood – 1705.13.2
	Cold-Formed Steel Light-Frame Construction – 1705.13.3
	Designated Seismic Systems – 1705.13.4
	Architectural Components – 1705.13.5
	Access Floors – 1705.13.5.1
	Plumbing, Mechanical and Electrical Components – 1705.13.6
	Storage Racks – 1705.13.7
	Seismic Isolation Systems – 1705.13.8
	Cold-Formed Steel Special Bolted Moment Frames – 1705.13.9
	Testing for Seismic Resistance – 1705.14
	Structural Steel – 1705.14.1

		Seismic Force-Resisting Systems – 1705.14.1.1
		Structural Steel Elements – 1705.14.1.2
		Nonstructural Components – 1705.14.2
		Designated Seismic Systems – 1705.14.3
