

Climate Incentives – Doing your Part Made Easy!

The City of Ashland offers numerous incentives to help you reduce your carbon footprint and use energy more efficiently. Learn how you can adapt your home to our changing climate. Scheduling a **free Home Energy Review** is a great place to start! Visit the website below for incentives on the following:

- Electric vehicles
- E-Bikes
- Solar Electric Systems
- Washer and Dryer
- Heat Pump Water Heaters
- Ductless Heat Pumps
- Induction Cooktops
- Commercial Electric Vehicle Charging Equipment

For a complete list and description of programs, and to learn more about Home Energy Reviews, see:

<http://ashlandor.org/climate-energy/find-resources/> or <http://ashland.or.us/climate>

Seasonally, in the Fall, the City of Ashland also partners with Recology Ashland to incentivize residents to manage their fallen leaves properly. Please remember, fallen leaves and debris should never be swept into Ashland city streets. Below is a list of leaf-related events and services that Ashland residents are encouraged to participate in.

- Green Debris Cart Pickup Service – Every other week, Recology removes leaves and composts them for less than \$10/month. Call Recology at 541.482.1471, or use the “Contact Us” feature on the Recology Ashland website, to add this convenient service to your existing Recology waste and recycling account.
- Seasonal Leaf Bag Pickup – Buy sets of 5 biodegradable “leaf bags” from Recology Ashland for only \$14.50/set. Bags hold up to 35 pounds of leaves and pickup is FREE.
- FREE Residential Leaf Drop-off Events – Two Sunday Leaf Drop-off events will take place at Recology Ashland’s Valley View Transfer Station on November 21st and December 2nd. This event is open to Ashland residents only. Although commercial landscapers and other businesses may not participate in these two events, they may bring their leaves to this Transfer Station – for a charge – Monday through Saturday year-round.
