This is our Declaration -

We oppose road R22 or any walking/bike path on the other side of our fence. Any road or path will interfere with our life all day and all night. A road or path will bring transients, lack of privacy, noise, litter, dust, light pollution, vibrations and fumes. It will reduce the value of our property. The area is wetlands and soggy all year round. R22 or a path could cause the water to come under our homes. We feel it will create an unsafe environment for us. We have 38 homes with 56 full time residents. This is an affordable housing community. Many are seniors on limited income. Many are single women living alone. We all get along pretty well. We rarely have to call the ambulance, fire department or police department.

We request that this Declaration is kept on file that we oppose R22 and any walking/bike path.

Thank You
