

General Fuel Modification Area

Tree Spacing

Trees on the prohibited flammable plant list must have at least 10 foot spacing between canopies.

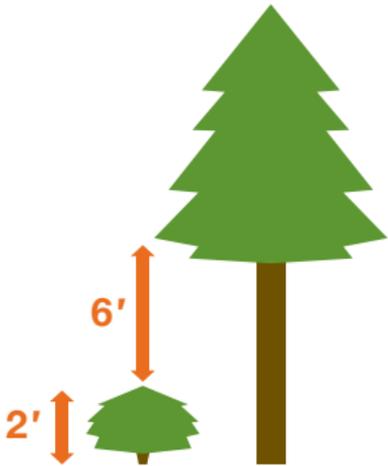

Shrub Spacing

Shrubs on the prohibited flammable plant list must be spaced 2 x the height of the shrub.

Minimum Vertical Clearance

3 x the height of the shrub to the lowest branches of the tree

A Neighborhood Responsibility — The home ignition zone is up to 200 feet from your home. Safe homes in an urban setting are a neighborhood responsibility.
