

TO: City of Ashland
ATTN: Electric Department

I verify by my signature below that the following is true:

I am the resident of _____ (the "Premises"), and I have authorization of the Premises owner (which maybe me) to opt out of City of Ashland (the "City") program for radio frequency reading of my electric meter.

I elect to opt out of the electric meter reading program and have my electric meter read manually instead of by radio frequency.

I agree that I will not force the City nor attempt to prevent or inhibit the City from reading meters on neighboring premises by means of radio frequency should the owners or residents of these Premises be users of such meter reading services.

I understand and accept that to manually read a meter, a City representative must physically read the electric meter located on the Premises. Furthermore, I have had sufficient opportunity to read Section 3.4 of the Electric Service Requirement book (ESR) which, among other provisions, requires that the electric "meter shall be assessable for reading, maintenance and emergencies."

(<https://www.ashland.or.us/Page.asp?NavID=181>)

By acknowledging the above, I agree, if it is deemed necessary by the City in its sole discretion, to allow City representatives onto the Premises for the purpose to manually read, maintain and service the Premises' electric meter, and that I am subject to and agree to comply with Section 3.4 and the other requirements provided in the ESR.

Resident's Signature Printed Name Date
