

PROHIBITED FLAMMABLE PLANTS

Not to be used within 30-feet of any structure, including outbuildings and decks (AMC 9.04). Avoid mass planting.

PROHIBITED TREES:

- Arborvitae/Redcedar, *Thuja spp.*
- *Cedar, *Cedrus spp.*
- *Cedar/Cypress, *Chamaecyparis spp.*
- *Cypress, *Cuprressus spp.*
- Douglas-fir, *Pseudotsuga menziesii*
- Fir, *Abies spp.*
- *Hemlock, *Tsuga spp.*
- Incense Cedar, *Calocedrus decurrens* or *Libocedrus decurrens*
- *Juniper, *Juniperus spp.*
- *Pine, *Pinus spp.*
- Giant Sequoia, *Sequoiadendron spp.*
- Coast Redwood, *Sequoia spp.*
- *Spruce, *Picea spp.*
- *Yew, *Taxus spp.*

PROHIBITED SHRUBS:

- Bitterbrush, *Purshia tridentata*
- Broom, *Cytisus spp.*
- *Ceanothus, *Ceanothus spp.*
- Himalayan Blackberry, *Rubus armeniacus*
- Juniper, *Juniperus spp.*
- *Lavender, *Lavandula spp.*
- *Manzanita, *Arctostaphylos spp.*
- *Oregon grape, *Mahonia aquifolium*
- *Rosemary, *Rosmarinus spp.*
- Sagebrush, *Artemisia tridentate* or *californica spp.*

PROHIBITED GRASSES:

- Pampas grass, *Cortaderia selloana*

*Exceptions may be granted for dwarf or prostrate varieties of these species planted beyond 5 feet from any structure, and that follow tree or shrub spacing guidelines as defined in the General Fuel Modification Area Standards in AMC 18.3.10.100.

Firewise plants may be planted within 5 feet of a building.

Flammable plants must be planted a minimum of 30 feet away from any structure.

Contact Ashland Firewise at 541-552-2231 for specific guidelines and recommendations.

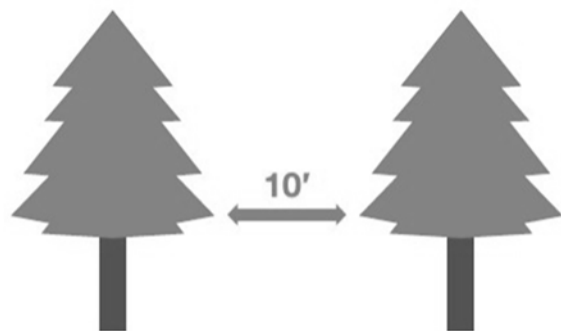

FLAMMABLE TREE & SHRUB

MINIMUM SPACING GUIDELINE BASICS

(See General Fuel Modification Area Standards in AMC 18.3.10.100 for full details)

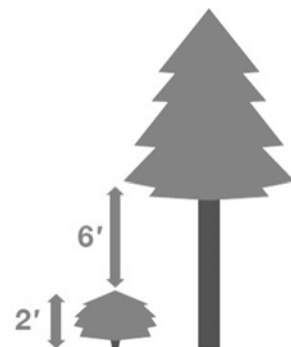

Shrubs on the prohibited flammable plant list must be spaced 2x the height of the shrub at maturity.

Trees on the prohibited flammable plant list must have at least 10 foot spacing between canopies.

Minimum Vertical Clearance

3 x the height of the shrub to the lowest branches of the tree

FIREWISE PLANTS

Plants typically have high moisture content, are low growing and deciduous or broadleaf evergreens.

EVERGREEN SHRUBS:

Mexican Orange, *Choisya sp.*
Boxwood, *Buxus sempervirens*
Rhododendron, *Rhododendron sp.*
Camellia, *Camellia sinensis*
Distylium, *Distylium sp.*
Portuguese Laurel, *Prunus luisitanica*
Silverberry, *Eleagnus sp.*
Coffeeberry, *Rhamnus sp.*
Abelia, *Abelia sp.*
Holly, *Ilex sp.*
Silk tassel, *Garrya elliptica*
Strawberry Tree, *Arbutus unedo*

DECIDUOUS SMALL TREES & SHRUBS:

Azalea, *Rhododendron sp.*
Hydrangea, *Hydrangea sp.*
Japanese Maple, *Acer palmatum*
Ninebark, *Physocarpus sp.*
Currant, *Ribes sp.*
Serviceberry, *Amelanchier sp.*
Elderberry, *Sambucus sp.*
Pieris, *Japonica sp.*
Spirea, *Spiraea thunbergii*
Crepe Myrtle, *Lagerstroemia sp.*
Daphne, *Daphne sp.*
Mock Orange, *Philadelphus sp.*
Snowberry, *Symphoricarpos sp.*
Cornelian Cherry, *Cornus mas*
Tree Peony, *Paeonia suffruticosa*
Redbud, *Cercis sp.*
Fruit Trees
Dogwood, *Cornus sp.*
Hornbeam, *Carpinus sp.*

DECIDUOUS TREES:

Chaste tree, *Vitex agnus-castus*
Persian ironwood, *Parrotia persica*
Oak, *Quercus sp.*
Maple, *Acer sp.*

Contact Ashland Firewise at 541-552-2231
for specific guidelines and recommendations.

PLANTS TO USE WITH CAUTION

These plants require more annual maintenance to remove dead leaves and branches. Use caution and plant outside of 5 feet from structures.

EVERGREEN SHRUBS:

Cedar (dwarf), *Cedrus sp.*
Pine (dwarf), *Pinus mugo*
Japanese Plum Yew, *Cephalotaxus sp.*
Oregon grape, *Mahonia sp.*
Rosemary, *Rosmarinus sp.*
Bottlebrush, *Callistemon sp.*
Rockrose, *Cistus prostrates*

GROUNDCOVERS:

Creeping Thyme
Creeping Oregon Grape, *Mahonia repens*
Creeping Strawberry
Kinnickinnick, *Arctostaphylos uva-ursi*
Phlox, *Phlox subulata*
Sweet Woodruff, *Galium odoratum*
Rosemary ground cover, *Rosmarinus prostrates*

GRASS:

Bamboo, *Bambusoideae pyhllostachys or fargesia*

Did You Know?

Fire science indicates that the first 5 feet around structures should be free from all combustible material, including flammable vegetation and bark mulch.

Firewise plants may be planted within 5 feet of a building.

Flammable plants must be planted a minimum of 30 feet away from any structure.
